NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 1988

1. Purpose and authority

The Government Telecommunications Agency Revolving Fund was originally established in 1963 to plan and provide telecommunications facilities and services at the request of federal departments and agencies. Section 23 of the Adjustment of Accounts Act authorized the Minister to make payments out of the Consolidated Revenue Fund for working capital, capital equipment and temporary financing of operating requirements, the total of which was not to exceed $8,000,000 at any time. This authority was increased to $12,000,000 by Appropriation Act No. 4, 1981-82, to $15,000,000 by Appropriation Act No. 4, 1983-84 and to $19,000,000 by Appropriation Act No. 4, 1984-85. In accordance with Vote 2c, Appropriation Act No. 4, 1982-83, an amount of $1,485,822 of the accumulated deficit caused by the payment to Bell Canada for a terminated contract has been written off to the authority. An amount of $741,781 representing net assets assumed by the Fund and assets contributed to the Fund was charged against this authority when the Fund became budgetary.

2. Significant accounting policies

(a) Fixed assets

Fixed assets are carried at cost. In most cases, depreciation is calculated using the diminishing balance method at the following rates: automobiles (30%), office equipment (20%), furniture and fixtures (10%). Telecommunications equipment constitutes a special category of assets, depreciated on a straight-line basis, over the first five to seven years of utilization of the equipment.

(b) Assets under capital lease

Leases which transfer substantially all of the benefits and risks incident to ownership of property are accounted for as acquisitions of assets and assumptions of obligations corresponding to the fair acquisition value of the asset (excluding interest charges) at the time of purchase. The asset is amortized and the obligation, including interest thereon, is liquidated over the life of the lease.

(c) Deferred charges

Service contracts amounting originally to $900,000 (1983-84) are included in this category. They relate to advance payments to suppliers for future telecommunications services and are amortized on a straight-line basis over a five year period. In 1987-88, the amortization relating to service contracts amounted to $180,000 ($180,000 in 1986-87).

Other deferred charges ($779 added in 1987-88) are linked to acquisitions of telecommunications equipment by GTA and are amortized on a straight-line basis on the same life expectancy as the asset they relate to. In 1987-88, the amortization relating to the other deferred charges amounted to $2,833.

(d) Deferred revenue—Service contracts

Advance payments from client departments and agencies for future telecommunications services are recorded as deferred revenue and are included in revenue on an equal basis over a five to seven years period. In 1987-88, $334,315 was recognized as revenue. An amount of $27,429 was also added to the deferred revenue in 1987-88 and will be amortized over the remaining life expectancy of the asset.

(e) Accrued revenue—Long-term

Monthly payment plans are offered to departments and agencies to cover implementation costs of telecommunications services. At the end of 1987-88, the amount outstanding is equal to $67,651. The short-term portion of the accrued revenue (due in 1988-89) represents $13,887 and is included in the accounts receivable—Government of Canada in the balance sheet.

(f) Employee termination benefits

Termination benefits accrue to employees over their years of service with the Government of Canada as provided for under collective agreements. The cost of these benefits is recorded in the accounts as the benefits accrue to the employees.

Acquisitions of telecommunications equipment during 1987-88 include the purchase of a telecommunications system amounting to $1,029,542 at the end of the fiscal year which was not depreciated in 1987-88. The depreciation of this asset and the corresponding recovery from the client department will begin as of April 1, 1988.

4. Obligation under capital lease

On June 1st, 1986, the Government Telecommunications Agency Revolving Fund entered into an agreement with BTE (Business Telecom Equipment) to rent telecommunications equipment under capital lease. The asset was capitalized at $177,000 using an interest rate of 13.63%. The related obligation is liquidated over the lease term of 3 years and is segregated between current and long term portions on the balance sheet. Lease payments during 1987-88 totalled $72,208 including interest of $14,882 charged to operations (Local).

National Film Board

MANAGEMENT REPORT

We have prepared the accompanying financial statements of the National Film Board Revolving Fund as required by and in accordance with the policy of the Treasury Board on revolving funds and the reporting requirements and standards of the Receiver General for Canada. The primary responsibility for the integrity and objectivity of data in these financial statements rests with the management of the Fund. In order to assure maximum objectivity and freedom from bias, the financial data contained in these financial statements have been examined by the audit Committee and presented to the Board of Trustees.

These financial statements were prepared in accordance with the stated accounting policies, as set out in Note 2, on a basis consistent with that of the preceding year. Some of the information included in these financial statements is based on management's best estimates and judgement and gives due consideration to materiality. To fulfill this reporting responsibility, the Fund maintains a set of accounts which provides a centralized record of the Fund's financial transactions. Financial information contained in the ministerial statements and elsewhere in the Public Accounts is consistent with that in these financial statements, unless indicated otherwise.

The Director of Administration and Financial Services develops and disseminates financial management and accounting policies and issues specific directives which maintain standards of accounting and financial management. Transactions are executed in accordance with prescribed regulations, within parliamentary authorities and are properly recorded to maintain accountability of Government funds and safeguard the Fund's assets. Financial management and internal control systems are augmented by the maintenance of internal audit programs where contacts are maintained between our internal auditor and staff of the Auditor General's Office. The Fund also seeks to assure the objectivity and integrity of data in its financial statements by the careful selection, training and development of qualified staff, by organizational arrangements that provide appropriate divisions of responsibility and by communication programs aimed at ensuring that its regulations, policies, standards and managerial authorities are understood throughout the organization.

These financial statements have been examined by the Auditor General, his role being to express an informed judgement as to whether the financial statements present fairly the financial position of the Board as at March 31, 1988 and the results of its operations and the changes in its financial position for the year ended in conformity with generally accepted accounting principles.

AUDITOR'S REPORT

TO THE MINISTER OF COMMUNICATIONS

I have examined the balance sheet of the National Film Board as at March 31, 1988 and the statements of operations, accumulated deficit and accumulated net charge against the Revolving Fund's authority for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the Board as at March 31, 1988 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

Further, I report, as mentioned in Note 9 to the financial statements, that the Board has exceeded its parliamentary appropriation, which is contrary to the provisions of the Financial Administration Act.

NOTES TO FINANCIAL STATEMENTS MARCH 31, 1988

1. Authority and purpose

The National Film Board was established in 1950 under the National Film Act to initiate and promote the production and distribution of films in the national interest and in particular to:

produce and distribute, and to promote the production and distribution of, films designed to interpret Canada to Canadians and to other nations;

represent the Government of Canada in its relations with persons engaged in commercial motion picture film activity in connection with motion picture films for the Government or any department thereof;

engage in research in film activity and to make available the results thereof to persons engaged in the production of films;

advise the Governor in Council in connection with film activities; and

discharge such other duties relating to film activity as the Governor in Council may direct it to undertake.

National Film Board—*Continued*

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1988—*Continued*

The Board, through the operation of a revolving fund having a permanent continuing authority from Parliament, can make payments out of the Consolidated Revenue Fund for working capital and the interim financing of operating costs and the acquisition of fixed assets and can record the increase in the net book value of fixed assets against this authority, which provides that the aggregate of admissible working capital and net book value of fixed assets is not to exceed $20 million at any one time. A parliamentary authority, to replenish the revolving fund for net acquisitions of fixed assets and the admissible cost of operations, is voted annually and recorded in the year to which it applies. Any unused balance lapses.

2. Significant accounting policies

Production of films and other forms of visual presentation

All production costs are charged to operations in the year in which they are incurred and shown in the statement of operations as follows:

Board's program
All costs incurred for unsponsored productions, the Board's share in coproductions and the excess of costs over the sponsor's contribution for partially-sponsored productions.

Sponsored production
All costs incurred for fully-sponsored productions and the sponsored costs of partially-sponsored productions.

Revenues from production of films and other forms of visual presentation are accounted for at an amount equal to the sponsored production costs during the year in which these costs are incurred. Any profit is recognized in the year the production is completed.

Film prints

The cost of prints made for sale purposes is recorded as inventories. The cost of other prints is expensed on a current basis.

Inventories

Productions in progress are carried at the cumulative amount of costs incurred for each production exceeding advances invoiced, up to the amount of the sponsored unbilled balance. On the other hand, any cumulative excess of advances invoiced over costs incurred is recorded as advances on productions.

Materials and supplies are carried at the average cost.

Film prints and other forms of visual presentation held for sale are carried at the lower of the average direct cost of production and net realizable value.

Fixed assets

Technical equipment, data processing equipment, office equipment and furniture and rolling stock are carried at cost. Depreciation is calculated on the straight-line method over the estimated useful lives of the assets, generally 3 to 20 years.

Leasehold improvements are charged to operations as incurred.

The Board enters into agreements to acquire the exclusive use of certain fixed assets through leasing arrangements. Rentals are charged to operations in the year to which they apply.

Employee termination benefits

On termination of employment, employees of the Board are entitled to certain benefits provided for under their collective agreements and their conditions of employment. The cost of these benefits is expensed in the year in which they are earned.

Pension plan

All employees participate in the superannuation plan administered by the Government of Canada. The employees and the Board contribute equally to the cost of the plan. This contribution represents the total liability of the Board. Contributions in respect of current service and admissible past service are expensed during the year in which payments are made. The terms of payment for past service are set by the applicable purchase conditions in effect, generally over the number of years of service remaining prior to retirement.

	13,292,388	3,610,533	2,844,032	14,058,889

During the year, the Board conducted a complete physical inventory of its fixed assets and has established new estimated useful lives of these assets. As a result, it wrote-off some fixed assets, with a cost of $3,513,266, including items with initial cost of between $200 and $500. The accumulated depreciation of these assets amounted to $2,706,357.

Furthermore, the Board has recalculated the previous years' depreciation of its fixed assets, according to the new estimated useful lives and, in this respect, recorded this year an additional expense of $928,950 which is included in the depreciation expense of $3,610,533.

8. Expenses to obtain programming licences

During previous years, the Board advanced $790,179 to a non-profit organization, in connection with an application to the Canadian Radio-Television and Telecommunications Commission (CRTC) in view of obtaining licences to offer programming intended for Canadian youth. During the year an additional advance of $17,944 was made for a total of $808,123.

Moreover, during the year, the Board incurred expenses of $342,874 for research and preparation of a second application to the CRTC in view of offering programming to a larger audience.

During the year, the CRTC rejected these two applications. The Board has thus charged operations for a total of $1,150,997 as expenses to obtain programming licences, including the write-off of the advance which has become uncollectable.

9. Amount spent in excess of parliamentary appropriation

During the year ended March 31, 1988, admissible costs exceeded the allowable parliamentary appropriation by $838,371.

10. Contingent liability

The Board is the defendant in certain pending claims and lawsuits for amounts totalling $2,116,130. It is the opinion of Management that these actions will not result in any substantial liabilities to the Board.

Passport Office Revolving Fund

MANAGEMENT REPORT

We have prepared the accompanying financial statements of the Passport Office Revolving Fund as required by and in accordance with the policy of the Treasury Board on revolving funds and the reporting requirements and standards of the Receiver General for Canada. The primary responsibility for the integrity and objectivity of data in these financial statements rests with the management of the Fund.

These financial statements have been prepared in accordance with the stated accounting policies, as set out in Note 2, on a basis consistent with that of the preceding year. Some of the information included in these financial statements is based on management's best estimates and judgements and gives due consideration to materiality. To fulfill this reporting responsibility, the Fund maintains a set of accounts which provides a centralized record of the Fund's financial transactions. Financial information contained in the ministerial statements and elsewhere in the Public Accounts is consistent with that in these financial statements, unless indicated otherwise.

The Fund's division for financial administration complies with departmental financial management and accounting policies, develops those specific to the Fund's requirements and issues manuals and directives which maintain these policies and which describe procedures. The Fund maintains systems of financial management and internal accounting controls which provide management with reasonable assurance that transactions are recorded and executed in accordance with its authorizations and that its assets are safeguarded. These systems are augmented by the departmental internal audit program.

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1988

1. Authority and purpose

   The Passport Office Revolving Fund was established in 1969 to provide for the issue of appropriate travel documents to Canadian citizens and to certain permanent residents of Canada who are unable to obtain valid passports from their country of origin.

   The Fund has a continuing non-lapsing authority from Parliament to make payments out of the Consolidated Revenue Fund for working capital, capital acquisitions and temporary financing of accumulated operating deficits, the total of which is not to exceed $4,000,000 at any time. An amount of $745,893 representing net assets assumed by the Fund and assets contributed to the Fund was charged to this authority when the Fund became budgetary in 1981.

2. Significant accounting policies

   (a) Inventories

   The inventory of materials and supplies is carried at cost and the inventory of passports-in-process is valued at average cost for the year.

   (b) Fixed assets

   Leasehold improvements are amortized on the straight-line basis over the term of the appropriate lease. Other fixed assets are depreciated from the year of acquisition on the straight-line basis over their estimated useful lives as follows:

Furniture	16 years
Electronic data processing (EDP) equipment	5 years
Other equipment	10 years

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1988—*Concluded*

(c) Employee termination benefits

Termination benefits accrue to employees over their years of service with the Government of Canada, as provided for under collective agreements. The cost of these benefits is recorded in the accounts as the benefits accrue to the employees.

(d) Revenue from passport fees is prepaid on application and accounted for on an accrual basis. Deferred revenue represents the fees received for which the services have not yet been provided.

Public Works Revolving Fund— Services and Management Account

MANAGEMENT REPORT

We have prepared the accompanying financial statements of the Public Works Revolving Fund—Services and Management Account as required by and in accordance with the policy of the Treasury Board on revolving funds and the reporting requirements and standards of the Receiver General for Canada. The primary responsibility for the integrity and objectivity of data in these financial statements rests with the management of the Fund. Furthermore, certain transactions of the Revolving Fund have been examined by the Auditor General as part of his annual audit of the Public Accounts.

These financial statements were prepared in accordance with the stated accounting policies set out in Note 2, on a basis consistent with that of the preceding year. Some of the information included in these financial statements is based on management's best estimates and judgements and gives due consideration to materiality. To fulfil this reporting responsibility, the Fund maintains a set of accounts which provides a centralized record of the Fund's financial transactions. Financial information contained in the ministerial statements and elsewhere in the Public Accounts is consistent with that in these financial statements, unless indicated otherwise.

The Fund's management develops and disseminates financial management and accounting policies and issues specific directives which maintain standards of accounting and financial management. The Fund maintains systems of financial management and internal control at appropriate cost. Transactions are executed in accordance with prescribed regulations, within parliamentary authorities and are properly recorded to maintain accountability of Government funds and safeguard the Fund's assets. Financial management and internal control systems are augmented by the maintenance of internal audit programs. The Fund also seeks to assure the objectivity and integrity of data in its financial statements by the careful selection, training and development of qualified staff, by organizational arrangements that provide appropriate divisions of responsibility and by communication programs aimed at ensuring that its regulations, policies, standards and managerial authorities are understood throughout the organization.

The accounting systems have evolved over the years to meet changing conditions. The cost accounting system was implemented during the 1987-88 fiscal year providing a better allocation and measurement of costs and enhancing management reporting.

Effective April 1, 1988 the Fund moved to a market based charging mode of operation. New financial accounting policies have been adopted and Treasury Board has approved revised terms and conditions effective that date.

NOTES TO FINANCIAL STATEMENTS MARCH 31, 1988

1. Purpose and authority

Under revised terms and conditions of TB Minute 793370, the Construction Services Revolving Fund became the Public Works Revolving Fund—Services and Management Account as at April 1, 1985. The Fund was established for the purpose of funding undertakings by the Department of Public Works on behalf of other Government departments and agencies, other governments and private sector tenants of federally owned or leased property.

The Adjustment of Accounts Act (Bill C-22 dated July 3, 1980) authorized the operation of the Construction Services Revolving Fund in the current and subsequent years with a statutory limit of $55 million.

In accordance with Section 33 of the Adjustment of Accounts Act and through the 1983-84 Supplementary Estimates B, the Construction Services Revolving Fund was amended to include charges to be made to PWC's departmental programs and to increase the financial authority from $55 million to $150 million.

In the 1984-85 final Supplementary Estimates, the Construction Services Revolving Fund draw-down authority was increased from $150 million to $300 million.

Public Works Revolving Fund—Services and Management Account—*Continued*

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1988—*Concluded*

In accordance with Section 33 of the Adjustment of Accounts Act and through the 1987-88 Supplementary Estimates (E), the Public Works Revolving Fund—Services and Management Account draw-down authority was increased from $300 million to $450 million.

The Fund has a continuing non-lapsing authority from Parliament to make payments out of the Consolidated Revenue Fund for the necessary working capital, the total of which is not to exceed $450,000,000 at any time.

2. Significant accounting policies

The Public Works Revolving Fund—Services and Management Account provides interim financing on a direct cost recovery basis for other Government departments and on a full cost recovery basis for third party clients. The recoveries are always equal to the expenditures hence no profit is realized. All operating expenditures of the Services Program are charged to the Public Works Revolving Fund—Services and Management Account, and the Fund is credited with the recovery from all clients for the services rendered.

The financial statements have been prepared using the following accounting policies:

(a) Recoveries recognition

Recoveries include cash receipts and receivables at year end from other Government departments in accordance with the Government's accounting policies, and payments to the Public Works Revolving Fund for operating expenditures not recovered from Government departments and agencies.

(b) Payments and charges recognition

All expenditures are recorded on the accrual basis, in accordance with the Government's PAYE accounting policy, with the exception of termination benefits and vacation pay which are recorded on the cash basis. Payments and charges are adjusted at year end by beginning and ending work in process.

(c) Work in process

Basis of valuation of work in process is cost incurred for work completed or services rendered and not recovered from clients at end of the fiscal year.

Race Track Supervision Revolving Fund

MANAGEMENT REPORT

The accompanying financial statements of the Race Track Supervision Revolving Fund have been prepared as required by and in accordance with the policy of the Treasury Board on revolving funds and the reporting requirements and standards of the Receiver General for Canada. The primary responsibility for the integrity and objectivity of the data in these financial statements rests with the management of the Fund.

These financial statements were prepared in accordance with stated accounting policies on a basis consistent with that of the preceding year, as set out in Note 2. Some of the information included in these financial statements is based on management's best estimates and judgements and give due consideration to materiality. Financial information presented herewith is consistent with that presented elsewhere in the Public Accounts and in ministerial statements. Transactions are executed in accordance with prescribed regulations, within parliamentary authorities and are properly recorded to maintain accountability of Government funds and safeguard the Fund's assets. The Fund maintains a set of accounts which provides a centralized record of the Fund's financial transactions.

The Department's Corporate Management Branch develops and disseminates financial management and accounting policies and issues specific directives to the staff managing the Revolving Fund in order to maintain standards of accounting and financial management.

Financial management and internal control systems of the Fund are maintained through the appropriate division of responsibility, the provision of leadership and evaluation of those operating the Fund as well as internal audit programs. The Fund also seeks to assure the objectivity and integrity of data in its financial statements by the careful selection, training and development of qualified staff, by organizational arrangements that provide appropriate divisions of responsibility and by communication programs aimed at ensuring that its regulations, policies, standards and managerial authorities are understood throughout the organization.

Race Track Supervision Revolving Fund—*Concluded*

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1988

1. Authority and purpose

The Race Track Supervision Revolving Fund was established under Appropriation Act No. 1, 1970, which authorized the operation of the Fund in the current and subsequent fiscal years in accordance with terms and conditions prescribed by Treasury Board for the purpose of providing race track supervision in Canada.

The Fund has a continuing non-lapsing authority from Parliament to make payments out of the Consolidated Revenue Fund for working capital, capital acquisitions and temporary financing of accumulated operating deficits, the total of which is not to exceed $2,000,000 at any time.

Charges to the Fund are to include administration expenses of race track supervision and costs of research relating to the use of drugs on horses and race surveillance techniques including the publication, distribution and sale of the results of such research. All revenues from activities approved by Treasury Board are to be credited to the Fund.

The use of the Fund's authority is monitored through the accumulated net charge against the Fund's authority account. Its balance, shown on the Balance Sheet under Equity of Canada, represents the financial position of the revolving fund. It is composed of the cumulative net cash transactions through the Consolidated Revenue Fund, the original net assets transferred to the Fund at inception and any subsequent write-offs of deficit or surplus. The change in this account during the year represents the net financial resources used or provided by the Fund.

2. Significant accounting policies

(a) Fixed assets

Fixed assets, acquired from parliamentary appropriations prior to April 1, 1970 are recorded in the Fund in accordance with Treasury Board Circular 1970-7 at values determined as at that date by officers of the Department. Subsequent acquisitions are recorded in the Fund at cost and are depreciated from the year of the acquisition on a straight-line basis over their estimated useful lives as follows:

Furniture and equipment	10 years
Electronic data processing equipment	5 years
Automotive	3 years
Buildings	25 years

(b) Pension plan

Employees of the Race Track Division operating the Supervision Revolving Fund are covered by the Public Service Superannuation Act and the Supplementary Retirement Benefits Act. The Government of Canada's portion of the pension cost is included in the employee fringe benefit charge assessed against the Fund. The actual payment of the pension is made from the Public Service Superannuation and the Supplementary Retirement Benefits Account.

(c) Vacation pay

The accrued liability on the Balance Sheet represents the amount of vacation pay credits outstanding at the end of the year.

(d) Employee termination benefits

Employees leaving Government service generally receive termination benefits at the rate of one week's pay for each complete year of continuous service to a maximum of twenty eight weeks' pay. However, upon resignation, benefits are generally payable only to those with ten or more years of continuous service and the entitlement is reduced to one half week's pay for each year of continuous employment to a maximum of thirteen weeks' pay.

The provision at the end of the year consists of one half week's pay at current salary rates for each complete year of service to a maximum of thirteen weeks' pay.

Self-supporting Airports and Associated Ground Services Revolving Fund

MANAGEMENT REPORT

We have prepared the accompanying financial statements of the Self-supporting Airports and Associated Ground Services Revolving Fund in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year. The responsibility for the integrity and objectivity of the data in these financial statements rests with management.

Some of the information included in these financial statements is based on management's best estimates and judgements, which give due consideration to materiality. To meet the reporting requirements, separate accounts are maintained on a decentralized basis for each of the airports funded by the Revolving Fund, under the functional authority of the Director, Financial Administration Branch, and are submitted to Ottawa Headquarters for review and consolidation. A Commercial Accounting System is under development and will be installed at all nine airports to provide more timely information.

Those airports in the Fund are subject to the departmental systems of financial management and internal control and such additional policies, practices and procedures as are necessary to facilitate financial reporting for the Revolving Fund, in accordance with the requirements of the Treasury Board and Receiver General for Canada. Transactions are executed in accordance with prescribed regulations, within parliamentary authorities, and are recorded to maintain accountability of Government funds and to safeguard the assets of the Revolving Fund.

Management seeks to assure the objectivity and integrity of data in its financial statements by the careful selection, training and development of qualified staff, by organizational arrangements that provide appropriate divisions of responsibility, and by communication programs aimed at ensuring that its regulations, policies, standards and managerial authorities are understood throughout the organization. In addition, the financial management and internal control systems are augmented by the maintenance of internal audit programs.

The accounting system and financial statements of the Fund have evolved over time in conjunction with changing conditions, the evolvement of financial reporting in Canada and, in response to the reporting requirements of Treasury Board and the Receiver General for Canada.

The airports in the Revolving Fund are operated and maintained in accordance with nationally promulgated policies, standards and procedures, on a cost-recoverable basis, so as to provide safe and efficient facilities and services consistent with the protection of the environment. Certain essential services provided by the Aviation Group for the approach, landing and take-off of aircraft are charged to the airports in the Fund.

As requested by the Deputy Minister of Transport, these financial statements have been examined by the Auditor General of Canada. The Auditor General's role is to express an opinion as to whether the financial statements present fairly the financial position of the Fund and the results of its operations and the changes in its financial position in accordance with generally accepted accounting principles applied on a consistent basis.

AUDITOR'S REPORT

TO THE MINISTER OF TRANSPORT

I have examined the balance sheet of the Self-supporting Airports and Associated Ground Services Revolving Fund as at March 31, 1988 and the statements of operations, accumulated surplus, contributed capital and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the Fund as at March 31, 1988 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

Self-supporting Airports and Associated Ground Services Revolving Fund—*Continued*

NOTES TO THE FINANCIAL STATEMENTS
MARCH 31, 1988

1. Authority and purpose

These financial statements disclose the financial position of the Airports Revolving Fund and the results of its operations within the established parliamentary authority. In addition, these financial statements demonstrate the extent of cost recovery in the operations of the airports within the Airports Revolving Fund, on the basis of allowable costs as explained in Note 2 on significant accounting policies.

The Airports Revolving Fund was established in 1969 by an Appropriation Act for the purpose of financing the operation and development of certain airports.

Effective April 1, 1980, Parliament through the passage of the Adjustment of Accounts Act established the Self-supporting Airports and Associated Ground Services Revolving Fund as a budgetary entity with a statutory drawing authority of $80 million. In addition to this authority the Fund has the authority to spend accumulated cash receipts in excess of cash disbursements. As at the end of the 1987-88 fiscal year, the Fund had accumulated cash receipts in excess of disbursements of $129 million, for a total unused authority of $209 million.

In 1984, the Treasury Board approved revised terms and conditions governing the operation and financing of the Fund, including the requirement for an annual financial plan to be approved by the Treasury Board. The Treasury Board also provided authority for a $1 item in the 1984-85 Supplementary Estimates (C) to amend certain provisions of the Adjustments of Accounts Act to provide specific authority, subject to normal Treasury Board approval, for:

the making of capital expenditures within the Fund; providing capital funds from revenues, appropriations or from the drawdown authority; and providing annual compensation for costs incurred in fulfilling objectives not directly related to the operation of airports as a self-supporting entity.

The revised terms and conditions state that the basic principle underlying the Fund is that it shall be operated as a financially self-supporting entity, in accordance with the following:

(1) The Fund shall operate on the basis of financial plans to be submitted annually for approval by the Treasury Board. Financial plans will include, inter alia, a review of past performance with respect to approved financial and management objectives; proposed performance targets, fee changes, capital expenditures, and allocations of revenues, overhead and indirect costs; a five-year forecast of revenues, expenditures and profitability; and, recommendations as to source and application of funds for the upcoming year.

(2) The Fund shall recover all its expenses through revenues, subject to the following:
   (a) capital funds will be provided from revenues, appropriations, or the statutory authority, as determined in the approved financial plan;
   (b) capital appropriations to the Fund are to be recovered under terms and conditions to be approved by the Treasury Board in the annual financial plan;
   (c) subject to approval by the Treasury Board, the Fund will be eligible for payments, through appropriation in Main Estimates, for costs incurred in support of activities, the costs for which are not to be recovered from users (these provisions were not enforced during the year); and,
   (d) in any given year, revenues of up to 110% of those forecast in Main Estimates may be expended without further reference to the Treasury Board.

(3) As approved in the financial plan, surplus monies generated by the Fund in a given year may be used to repay any outstanding drawdown against the non-lapsing statutory authority, to pay a return to the Consolidated Revenue Fund (CRF) on capital payments made through appropriations, or be retained in the CRF as a credit to the Fund if no drawdown exists.

(4) Airports shall be eligible for inclusion in the Fund if deemed capable of recovering on average, 90% of operating costs, including depreciation, over a five-year forecast period, either as individual entities or as complementary airports serving the same geographic area.

(5) Capital funds within the Fund will be subject to allotment control in accordance with Treasury Board policy.

(6) Subject to these terms and conditions, it is expected that the Fund will operate within the limits of the statutory drawdown authority approved by Parliament.

2. Summary of significant accounting policies

The financial statements have been prepared in accordance with accounting principles generally accepted in Canada.

(a) Valuation of inventory of materials and supplies

Inventory of materials and supplies, held for repair and maintenance purposes at the airports, is valued at the lower of cost and net realizable value.

(b) Fixed assets

Fixed assets purchased by the Fund are recorded at cost. Fixed assets transferred to the Fund prior to April 1, 1979 are recorded at appraised values established by the Department of Transport in accordance with Treasury Board Circular 1970-7 of January 8, 1970. Fixed assets transferred to the Fund as at April 1, 1979 are recorded at their depreciated value at that date. Subsequently, all transfers of fixed assets from and to Canada are recorded at net book value at the date of transfer.

Project administration costs, including interest incurred during the construction of new airports, are capitalized and included in airport development costs to the extent that these costs are not readily identifiable with specific fixed assets. Additions, renewals and betterments which extend the economic lives of the assets are capitalized. Maintenance and repairs are charged to operations.

(c) Depreciation of fixed assets

Depreciation is charged on a straight-line method based on the estimated useful life of the asset.

The depreciation rates used within the major classes of assets are as follows:

Terminal and facilities	2.5% to 5.0%
Runways and other paved surfaces	3.3% to 5.5%
Machinery and equipment	4.0% to 20.0%
Airport development costs (excluding interest)	10.0%

NOTES TO THE FINANCIAL STATEMENTS

(d) Air transportation tax

Air transportation tax is levied under the Excise Tax Act, Part II. The tax is collected by the Department of National Revenue—Customs and Excise which transfers funds equivalent to the tax collections to the Department of Transport. The method of allocating the tax revenue between the Fund, the Federal Dependent Airports and Air Navigational Services is under review. Sufficient tax proceeds are allocated to the Fund in Main Estimates to cover the estimated shortfall between site-generated revenue and operating costs, depreciation and interest.

(e) Interest associated with capital contributed to the Fund

Interest is allocated on the capital contributed to the Fund. The interest rate (10.36% in 1987-88, 10.32% in 1986-87) is based on Crown Corporation borrowing rates weighted against the net book value of capital acquisitions for the last 20 years. An average of the contributed capital balance less surplus in the accumulated net charge against the Fund's authority balance at the beginning and the end of the year is used to calculate the allocated interest.

(f) Net services provided to and received from Government departments without charge

The Fund accounts for the net cost of services received from and provided to the Department of Transport and other Government departments without charge as an expense. The offsetting entries are to contributed capital.

(g) Terminal control costs

Terminal control costs are those air navigational services associated with the approach, landing and take-off of aircraft at an airport and the control of enroute flights while traversing a terminal control area. The costing of terminal control includes direct and indirect costs and depreciation for air traffic services, flight service stations, technical support services, flight calibration, and meteorological services. The amount of terminal control costs allocated to the Fund is fixed annually in the Main Estimates and is used in determining certain revenues of the Fund. The method of allocating terminal control costs to the Fund is presently under review.

(h) Management services charges

The management services charges reflect the charges by the Department of Transport for the estimated costs of technical and administrative services provided to the Fund. Since these expenditures are not readily identifiable with specific services, the charges are allocated to the Fund as a percentage of direct operating and maintenance expenses.

(i) Grants in lieu of taxes

Grants in lieu of taxes, imposed on airports of the Fund, are accrued based on estimated municipal assessments adjusted in accordance with the Municipal Grants Act. Grants are paid by the Department of Public Works and recovered from the Fund.

The grants are not finalized until they have been audited by the Department of Public Works, often several years in arrears. Any adjustments upon finalization are reflected in the accounts in the year of settlement.

(j) Employee benefits

Department of Transport employees operating the airports of the Fund are covered by the Public Service Superannuation Act and the Supplementary Retirement Benefits Act. The Government of Canada's portion of their pension cost is included in the employee benefit charge assessed against the Fund. The actual payment of the pension is made from the Public Service Superannuation Retirement Benefits Account.

Termination benefits accrue to Department of Transport employees operating airports of the Fund. Payment of these benefits is made to employees on separation or retirement. The cost of these benefits is expensed in the year in which they are earned.

3. Fixed assets

4. Equity of Canada

(a) Accumulated net charge against the Fund's authority

The accumulated net charge against the Fund's authority at the end of the year, shown as part of the Equity of Canada, represents the net accumulation of all cash transactions made through the Consolidated Revenue Fund.

The Consolidated Revenue Fund is the central account through which all Government receipts and disbursements flow. All cash transactions of the Fund are therefore made through the Consolidated Revenue Fund. By virtue of the Fund's mandate, it receives credit for all revenues generated and is empowered to draw funds under statutory authority from the Consolidated Revenue Fund for any shortfalls.

A drawdown on the Fund's authority occurs when accumulated cash disbursements exceed accumulated cash receipts (credit balance) and bears interest at a rate determined by the Minister of Finance. An accumulated excess of cash receipts over cash disbursements (debit balance) represents an addition to the drawing authority of the Fund.

(b) Contributed capital

Contributed capital includes the amounts representing the values assigned to assets transferred from and to Canada, services provided and received by Government departments without charge, interest associated with capital contributed to the Fund and reimbursement by Canada for projects undertaken under the Special Recovery Capital Projects Program.

(c) Accumulated surplus

The accumulated surplus account at the end of the year represents the net accumulation of surpluses and deficits since the establishment of the Fund.

5. Net services provided to and received from Government departments without charge

	1987-88	1986-87

Other	(614)	(568)
	(4,690)	(4,192)
Net services (provided to) received from Government departments	24,912	(144)

Subsequent to a Treasury Board decision, Royal Canadian Mounted Police security costs are no longer charged directly to the Airports Revolving Fund. These security costs have therefore been included as services provided without charge in 1987-88. These charges were paid directly by the Fund in 1986-87 when an amount of approximately $22 million was included in materials, supplies and services.

6. Development Agreement—Terminal 3, Lester B. Pearson International Airport

On November 20, 1987, the Department of Transport entered into a development agreement under which a developer will construct and operate a third terminal building at Lester B. Pearson International Airport in Toronto. A ground lease and related agreements were entered into in April 1988 after the completion of certain conditions required by the November 1987 development agreement. The ground lease is for a term of 40 years and the Developer has the option of renewing the lease for a further term of 20 years. If the Developer exercises the option to renew the lease for the further term of 20 years, the Department of Transport has the option to purchase the terminal building at the end of the 40 year lease term for the market value at that date. Title to the terminal building reverts to the Department of Transport, at no cost, automatically at the end of the 20 year renewal term, or at the end of the 40 year lease term if the Developer does not exercise his option to renew.

The Developer paid $2 million on entering into the lease agreement in April 1988 and is required to pay a further $28 million on completion of the terminal building. These payments will be recognized as revenue over the 40 year lease term.

The Department of Transport has agreed to provide, under certain specified conditions, loans to the Developer during the first 15 years of the lease. The principal and accumulated interest on these loans may not exceed $70 million and in any one year no more than $8 million may be loaned. An amount of 25% of the value of any loans made to the Developer will be charged to the Airports Revolving Fund and will be set aside as a reserve against defaults.

7. Contractual obligations

As at March 31, 1988, the Fund was committed to expenditures totalling approximately $43 million under fixed asset construction and maintenance contracts.

8. Contingent liabilities

The Department of Transport is a defendant in certain pending and threatened litigations related to the operations of the Fund. The aggregate amount of claims in respect thereof as at March 31, 1988 is approximately $167 million. These claims include a legal suit filed in the Federal Court of Canada by a group of major international air carriers challenging the legality of the Air Services Fees Regulations related to the transoceanic landing fee levied under Section 5 of the Aeronautics Act. They have claimed reimbursement of all transoceanic landing fees paid since 1974. A favourable judgement to the Fund was rendered when the action was heard in February 1987, but there is still a contingency pending due to the filing of a notice of appeal by the air carriers. Any settlement resulting from the resolution of these contingent liabilities will be accounted for as a prior period adjustment.

9. Comparative amounts

Certain 1987 comparative amounts have been reclassified to conform to the presentation adopted in 1988.

Public Service Commission— Staff Development and Training Revolving Fund

MANAGEMENT REPORT

We have prepared the accompanying financial statements of the Staff Development and Training Revolving Fund as required by and in accordance with the policy of the Treasury Board on revolving funds and the reporting requirements and standards of the Receiver General for Canada. The primary responsibility for the integrity and objectivity of data in these financial statements rests with the management of the Fund.

These financial statements were prepared in accordance with the stated accounting policies, on a basis consistent with that of the preceding year. Some of these policies are further explained in the notes which form part of these statements. Some of the information included in these financial statements is based on management's best estimates and judgements and gives due consideration to materiality. To fulfill this reporting responsibility, the Fund maintains a set of accounts which provides a centralized record of the Fund's financial transactions. Financial information contained in the ministerial statements and elsewhere in the Public Accounts is consistent with the information presented in these financial statements, unless indicated otherwise.

The Financial Services Directorate and the Fund's Comptroller, who reports functionally to the senior full-time financial officer, develops and disseminates financial management and accounting policies, and issue specific directives which maintain standards of accounting and financial management. Systems of financial management and internal control are maintained for the Fund at appropriate cost. Transactions are executed in accordance with prescribed regulations, within parliamentary authorities, and are properly recorded to maintain accountability of Government funds and safeguard the Fund's assets. Financial management and internal control systems are augmented by the activities of internal audit and by on-going monitoring activities by the Fund's Comptroller, financial services officers and by the Financial Services Directorate. The Fund also seeks to assure the objectivity and integrity of data in its financial statements by the careful selection, training and development of qualified staff, by organizational arrangements that provide appropriate divisions of responsibility, and by communication programs aimed at ensuring that its regulations, policies, standards and managerial authorities are understood throughout the organization.

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1988

1. Authority and purpose

The Staff Development and Training Revolving Fund was established by Vote L120, Appropriation Act No. 3, 1971, for the purpose of providing training and development to the Public Service.

The Fund has a continuing non-lapsing authority under the Adjustment of Accounts Act, S.C. 1980, c. 17, to make payments out of the Consolidated Revenue Fund for working capital and temporary financing of accumulated operating deficits, the total of which is not to exceed $4,500,000 at any time. In accordance with Vote 115a (1980-81) and Vote 35c (1981-82), accumulated deficits of $4,573,071 have been deleted from the accounts. An amount of $1,915,571 representing net liabilities assumed by the Fund was charged to this authority when the Fund became budgetary in 1981.

2. Significant accounting policies

(a) Employee termination benefits

Termination benefits accrue to employees over their years of service with the Government of Canada as provided for under collective agreements. The cost of these benefits is recorded in the accounts as the benefits accrue to the employees.

(b) Fixed assets and depreciation

Effective April 1, 1984 the Staff Development and Training Revolving Fund adopted the accounting policy of capitalizing fixed asset purchases and charging operations for the use of these assets. These fixed assets are depreciated on the declining balance method from the year of acquisition at the following rates:

Office and classroom furniture	10%
Office and classroom equipment	15%
EDP and word processing equipment	25%

(c) Prepaid expenses

Under the terms of two contracts, advance payments are made to suppliers for the provision of video learning tapes and are recorded as prepaid expenses on the balance sheet. The operations of the Fund are charged with expenses coincident with the provision of services.

(d) Deferred revenue

Consists of amounts received from clients for services to be rendered.

3. Subsidized operations

Appropriation funds in the amount of $2,885,000 were paid to the Staff Development and Training Revolving Fund for the 1987-88 fiscal year. These funds were approved to cover the cost of the activities that should not be borned by the user which are not cost recoverable. The comparative figure for 1986-87 is $2,885,000.

Supply Revolving Fund

MANAGEMENT REPORT

The accompanying financial statements of the Supply Revolving Fund have been prepared by Supply and Services Canada in accordance with Treasury Board policies, and reporting requirements and standards of the Receiver General for Canada.

These financial statements have been prepared on a basis consistent with that of the preceding year and are consistent with information presented elsewhere in the Public Accounts and with ministerial statements. Significant accounting policies used in the preparation of the financial statements are included in the notes to financial statements. Changes in financial statement presentation have been made as disclosed in Note 3 and therefore some previous year's figures have been reclassified to conform to the current year's presentation. Some of the information included in these financial statements is based on management's best estimates and judgements and gives due consideration to materiality.

The primary responsibility for the integrity and objectivity of these financial statements rests with the Finance and Administration Sector. This responsibility is discharged by the Comptroller's Directorate which develops and disseminates financial management and accounting policies and issues specific directives necessary to maintain standards of accounting and financial managements. Furthermore, the Department maintains internal controls designed to indicate accountability, provide assurance that assets are safeguarded and that reliable financial records are kept. Financial management and internal control systems are augmented by the maintenance of internal audit programs.

NOTES TO THE FINANCIAL STATEMENTS MARCH 31, 1988

1. Purpose and authority

The objective of the Fund is to acquire and provide goods and or services required by departments and agencies, taking into account the contribution of procurement to the realization of national objectives, and to provide services for the disposal of Crown owned materiel, all in the most economical manner.

The Supply Revolving Fund was authorized by Supply and Services Vote L6, Appropriation Act No. 1, 1975. Amendments to the appropriation authorized that the operations of the Supply Revolving Fund be combined with the operations of the Printing Revolving Fund effective April 1, 1975, with the Publishing Revolving Fund effective April 1, 1976, and with the Expositions Revolving Fund effective April 1, 1977.

NOTES TO THE FINANCIAL STATEMENTS
MARCH 31, 1988—*Continued*

Effective April 1, 1980, Parliament, through the passage of the "Adjustment of Accounts Act", repealed all votes in respect of the accounts of the Supply Revolving Fund. Section 29 of the Act established the Supply Revolving Fund as a budgetary entity with a statutory non-lapsing drawing authority of $150 million. The authorized limit of the Fund was subsequently increased from $150 million to $200 million through the Appropriation Act No. 4, 1981-82.

An amount of $44,171,345, representing net assets assumed by the Fund and assets contributed to the Fund, was charged to this authority when the Fund became budgetary in 1981. Pursuant to Treasury Board authority, the accumulated surplus has been transferred to the Fund's authority.

2. Significant accounting policies

(a) Revenue and expenses

Revenue and expenses are recorded on the accrual basis of accounting with the following variations:

(i) The accrual policy for recording certain acquisition revenue is based on detailed and validated statistical analysis of the procurement work-load. This policy was implemented to avoid expensive record keeping while respecting the need for adherence to the generally accepted accounting principle of matching cost and revenue.

This policy was revised June 1, 1987. As a result, on contracts ranging from $240,000 to $60 million, an initial fee equal to 50% on science and engineering acquisition contracts and 65% on commercial acquisition and printing acquisition contracts is charged at the date of contract issuance and the balance of the fee is charged over the life of the contract. Certain other large contracts are administered on a project management basis and the actual cost of the project is recorded as revenue in each accounting period over the entire life of the project. Management recognizes that some revenue is earned prior to contract award date but is of the opinion that the accounting principle of matching cost and revenue is not materially violated.

(ii) Employee benefits (termination benefits and vacation pay) accrue to employees over their years of service with the Government of Canada as provided for under collective agreements. The total liability of these benefits is not accrued; however, the actual expenses are recorded in the period in which they are incurred. The unaccrued liability is reflected in Note 9.

(b) Depreciation

Leasehold improvements are amortized on the straight line basis over the term of the lease with a maximum of 10 years. Other fixed assets are depreciated commencing the year after acquisition on the straight line basis over their estimated useful lives as follows:

Leasehold improvements	10 years
Furniture	5 years
EDP equipment	5 years
Automotive	5 years
Warehouse equipment	10 years
Printing equipment	8 years
Audio-video	10 years

3. Changes in financial statements presentation

(a) The grouping of sales by output services has been restated in accordance with the activity reporting requirements outlined in the 1987-88 Estimates.

(b) The 1987 figures have been restated to conform with 1988 presentation requirements.

4. Inventories

Work-in-process	1,553,503	979,617
	18,589,548	17,874,253

5. Net investment in EDP equipment leases

The Treasury Board, on March 2, 1976, authorized the Supply Revolving Fund to purchase designated EDP equipment approved by Treasury Board for client departments. The capital, interest and any other costs are recoverable from departments over a one to five year period under direct financing leasing agreements. Title to the equipment remains with the Supply Revolving Fund until the cost of the equipment is paid in full. Payments by the client departments for the long-term investment in leases are due—$1,651,903 in 1989-90, $1,990,888 in 1990-91 and $297,631 in 1991-92.

6. Fixed assets and accumulated depreciation

Depreciation in the amount of $2,118,603 in 1988 and $1,432,096 in 1987 has been included in the cost of sales in the statement of operations.

7. Sales and cost of sales

For consolidation purposes, sales and cost of sales in the amount of $21,399,595 ($20,763,265 in 1987) have been eliminated.

8. Deferred acquisition contract fees

In accordance with the revised Department's policy on smoothing revenue for certain types of contracts as detailed in 2(a)(i), the value of deferred acquisition fees on uncompleted contracting work as at March 31, 1988 amounted to $12,256,688 ($12,388,161 in 1987).

9. Employee benefits liability

The unaccrued liability for employee benefits consists of termination benefits and vacation pay.

FINANCIAL STATEMENTS OF DEPARTMENTAL CORPORATIONS

Agricultural Stabilization Board

MANAGEMENT REPORT

In connection with the recording of financial transactions in the Accounts of Canada and the reporting of financial information to be included in the Public Accounts, relating to the Agricultural Stabilization Board for the year ended March 31, 1988, we make the following representations, based on the best of our knowledge and belief.

We have prepared the accompanying financial statement of the Agricultural Stabilization Board in accordance with the reporting requirements and standards of the Receiver General for Canada. The responsibility for the integrity and objectivity of data in this financial statement rests with the Board.

This financial statement was prepared in accordance with the accounting policies set out in Note 2, on a basis consistent with that of the preceding year. Some of the information included in the financial statement is based on management's best estimates and judgements and gives due consideration to materiality. To fulfill its reporting responsibility, the Board maintains a set of accounts which provides a centralized record of its financial transactions. Financial information contained in the ministerial statements and elsewhere in the Public Accounts is consistent with that in this financial statement.

The Board maintains systems of financial management and internal control. Transactions are executed in accordance with prescribed regulations, within parliamentary authorities, and are properly recorded to maintain accountability of Government funds and safeguard the Board's assets. Financial management and internal control systems are augmented by periodic internal audits. The Board also seeks to assure the objectivity and integrity of data in its financial statement by the careful selection, training and development of qualified staff, by organizational arrangements that provide appropriate divisions of responsibility, and by communication programs aimed at ensuring that its regulations, policies, standards and managerial authorities are understood throughout the organization.

Agricultural Stabilization Board—*Continued*

NOTES TO THE STATEMENT OF OPERATIONS
MARCH 31, 1988
(unaudited)

1. Authority and objective

The Board, which was established in 1957 and operates under the authority of the Agricultural Stabilization Act (the "Act"), consists of three members appointed by the Governor in Council. The Board is a departmental corporation named in Schedule B to the Financial Administration Act.

The objectives of the Board are to stabilize the prices of agricultural commodities in order to assist the agricultural industry to realize fair returns for its labour and investment and to maintain a fair relationship between prices received by farmers and the costs of goods and services that they buy.

The Board's administration expenditures and contributions for designated commodities and for named commodities in excess of the minimum provisions of the Act, are funded by a budgetary lapsing authority. Contributions for named commodities pursuant to the minimum provisions of the Act and for commodities covered by price stabilization agreements established pursuant to the Act are funded through a statutory authority.

2. Significant accounting policies

(a) Expenditure recognition

Administration expenditures and contributions for designated commodities and for named commodities in excess of the minimum provisions of the Act are recorded on a cash basis except that disbursements for which payment claiming documents have been received within 45 days after the year end are accrued in accordance with the Government of Canada accounting policy for recording Payables at Year End. Contributions funded by a statutory authority, termination benefits and vacation pay are recorded on the cash basis.

(b) Refunds of previous years' expenditure

Refunds of previous years' annually voted expenditure are recorded as revenue when received.

(c) Capital purchases

Acquisitions of capital assets are charged to administration expenditure in the year of purchase.

(d) Services provided without charge

Estimated amounts for services provided without charge by Government departments are included in administration expenditures.

5. National tripartite price stabilization accounts

During 1987, the Governments of Canada and certain provinces signed agreements pursuant to the Agricultural Stabilization Act establishing national tripartite price stabilization schemes for white beans, other dry edible beans, sugar beets, and apples. Agreements for hogs, beef (feeder/slaughter cattle and feeder-calves) and lamb were signed in 1986 and are ongoing. Funding for each scheme is shared equally by Canada (as represented by the Board), participating provinces and participating producers. Producer premiums and provincial and federal Government contributions received and made by the Board are deposited to a stabilization account for each scheme in the Consolidated Revenue Fund of Canada. Stabilization payments to producers are made from these accounts. The Minister of Finance for Canada has authorized the payment of interest on the amounts standing to the credit of the stabilization accounts which are administered by the Board.

The transactions relating to the stabilization accounts as at March 31, 1988 are as follows:

Atomic Energy Control Board

MANAGEMENT REPORT

We have prepared the accompanying financial statement of the Atomic Energy Control Board (AECB) in accordance with the reporting requirements and standards of the Receiver General for Canada. The primary responsibility for the integrity and objectivity of data in this financial statement rests with the management of the AECB.

This financial statement was prepared in accordance with the stated accounting policies set out in Note 2, on a basis consistent with that of the preceding year. Some of the information included in the financial statement is based on management's best estimates and judgements and gives due consideration to materiality. To fulfill its reporting responsibility, the AECB maintains a set of accounts which provides a centralized record of the AECB's financial transactions. Financial information contained in the ministerial statements and elsewhere in the Public Accounts is consistent with this financial statement, unless indicated otherwise.

The AECB Planning and Administration Branch develops and disseminates financial management and accounting policies, and issues specific directives which maintain standards of accounting and financial management. The AECB maintains systems of financial management and internal control at appropriate cost. Transactions are executed in accordance with prescribed regulations, within parliamentary authorities, and are properly recorded to maintain accountability of Government funds and safeguard the AECB's assets. The AECB also seeks to assure the objectivity and integrity of data in its financial statement by the careful selection, training and development of qualified staff, by organizational arrangements that provide appropriate divisions of responsibility, and by communication programs aimed at ensuring that its regulations, policies, standards and managerial authorities are understood throughout the organization.

This financial statement has been examined by the Auditor General, his role being to express an informed opinion as to whether the AECB's financial statement, considered in its entirety, presents fairly, in conformity with stated accounting policies, the AECB's financial transactions. It should be noted that the net cost of operations ($24,485,010) and the use of appropriations ($22,876,532), which appear in the Accounts of Canada, are each $81 less than the net cost of operations and total appropriations used figures shown in Note 3 to the statement of operations. It should also be noted that on the statement of operations, $644 was charged to utilities, materials and supplies rather than information.

The accounting system and financial statement of the AECB have evolved over the years to meet changing conditions and, more recently, to initiate a departmental recommendation to improve the cost accounting system. This improvement will, if required, provide the basis for accurate billings for licencees and other Government departments. There is also in progress a preliminary study of possible fee structures and rates.

AUDITOR'S REPORT

TO THE ATOMIC ENERGY CONTROL BOARD
AND THE
MINISTER OF ENERGY, MINES AND RESOURCES

I have examined the statement of operations of the Atomic Energy Control Board for the year ended March 31, 1988. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, this financial statement presents fairly the results of the operations of the Board for the year ended March 31, 1988 in accordance with the accounting policies set out in Note 2 to the financial statement applied on a basis consistent with that of the preceding year.

NOTES TO THE STATEMENT OF OPERATIONS
MARCH 31, 1988

1. Authority and purpose

The Atomic Energy Control Board (AECB) was established in 1946 by the Atomic Energy Control Act. It is a departmental corporation named in Schedule B to the Financial Administration Act and currently reports to Parliament through the Minister of Energy, Mines and Resources.

The objective of the AECB is to control nuclear energy in the interests of health, safety and national security. The AECB achieves this objective by controlling the development, application and use of nuclear energy in Canada, and by participating on behalf of Canada in international measures of nuclear energy control.

The AECB also is responsible for the administration of the Nuclear Liability Act, including the designation of nuclear installations, the prescription of basic insurance to be carried by the operators of such nuclear installations and the administration of supplementary insurance coverage premiums for these installations. The sum of the basic insurance and supplementary insurance totals $75 million for each designated installation (see Note 8). The number of facilities requiring insurance coverage is 14.

The AECB's grants and contributions, operating and administration expenditures are funded by a budgetary lapsing authority. Employee benefits are authorized by a statutory authority.

2. Significant accounting policies

The statement of operations has been prepared using the following accounting policies:

(a) Expenditure recognition

All expenditure is recorded on the accrual basis, in accordance with the Government's accounting policy, with the exception of employee termination benefits and vacation pay which are recorded on the cash basis.

(b) Revenue recognition

Revenue is recorded on the cash basis in accordance with the Government's accounting policies.

(c) Capital purchases

Acquisitions of capital assets are charged to operating expenditure in the year of purchase.

(d) Services provided without charge

Estimates of amounts for services provided without charge by Government departments are included in expenditures.

(e) Refunds of previous years' expenditure

Refunds of previous years' expenditure are recorded as revenue when received and are not deducted from expenditure.

(f) Contributions to superannuation plan

AECB employees participate in the superannuation plan administered by the Government of Canada and contribute equally with the AECB to the cost of the plan. Contributions by the AECB are charged to expenditure when disbursed.

The costs associated with other liabilities are not included in the statement of operations. These costs are recognized only when paid (see Note 2(a)).

The vacation pay represents the amount of vacation pay credits outstanding at the end of the year.

The employee termination benefits are calculated on the basis of one half week's pay for each complete year of continuous service to a maximum of 13 weeks' pay.

5. Obligation under capital lease

The AECB entered into an agreement to lease a computer system effective May 1, 1984. The system was valued at $298,959 using an implicit interest rate of 12.5%, and the obligation is liquidated over the lease term of five years. Lease payments during 1988 totalled $79,200 (1987—$79,200) including interest of $17,728 (1987—$22,427) charged to operations.

The AECB amended the agreement to enhance the system effective August 1, 1986. The additional equipment leased was valued at $102,112 using an implicit interest rate of 10.0%, and the obligation is liquidated over the lease term of 33 months. Lease payments during 1988 totalled $40,988 (1987—$23,909), including interest of $7,623 (1987—$5,933) charged to operations.

The future minimum lease payments under capital lease are as follows:

	1988	1987
	$	$
Year ending March 31		
1988		120,188
1989	120,188	120,188

Total future lease payments	180,326	300,514
Less: amount representing interest	32,192	57,543
Present value of obligation	148,134	242,971
Less: current portion	105,746	94,837
Long-term obligation	42,388	148,134

6. Contingent liabilities

At March 31, 1988, the AECB was defendant in lawsuits amounting to $600,000 (1987—$13,950,000). The lawsuits are seeking damages for breach of statutory duties related to radioactively contaminated soil. Any settlement resulting from the resolution of these actions will be paid from the Consolidated Revenue Fund.

7. Related party transactions

AECB administers a special program jointly with Atomic Energy of Canada Limited (AECL) for research and development in support of the safeguards program of the International Atomic Energy Agency. For 1988, AECL charged $659,421 (1987—$500,000) to this program.

On the statement of operations, expenditure is net of $55,530 (1987—$293,980) and revenue includes $6,804 (1987—$41,667) for services provided by the AECB's Orientation Centre to the Department of External Affairs and AECL.

8. Nuclear liability reinsurance account

Under Section 17 of the Nuclear Liability Act, all premiums paid by the operators of nuclear installations for supplementary insurance coverage are credited to a Nuclear Liability Reinsurance Account. The Account forms part of the Consolidated Revenue Fund. Any claims against the supplementary insurance coverage are payable out of the Consolidated Revenue Fund and charged to the Account. There have been no claims against or payments out of the Nuclear Liability Reinsurance Account since its creation. The balance of the Nuclear Liability Reinsurance Account as at March 31, 1988 is $531,142 (1987—$529,742).

The supplementary insurance coverage provided by the Government of Canada under the Nuclear Liability Act, as of March 31, 1988 is $641,600,000 (1987—$641,600,000). Insurance coverage, by the Government of Canada, also includes a class of risks excluded as a liability of the principal insurers.

9. Prior year adjustment

It should be noted that the amounts reported for 1987 Net cost of operations and 1987 Total appropriations used, are each $5,000 higher than reported last year. This difference is the result of the Accounts of Canada not recording a $5,000 interdepartmental credit to professional and special services before year end. This transaction is recorded in 1988 as a refund of previous year's expenditure.

Canada Employment and Immigration Commission

MANAGEMENT REPORT

We have prepared the accompanying financial statement of the Canada Employment and Immigration Commission (CEIC) in accordance with the reporting requirements and standards of the Receiver General for Canada. The primary responsibility for the integrity and objectivity of data in this financial statement rests with the management of CEIC. In order to assure maximum objectivity and freedom from bias, the financial data contained in this financial statement has been examined by the Senior Management of CEIC.

This financial statement was prepared in accordance with the accounting policies set out in Note 2, on a basis consistent with that of the preceding year. Previous year figures have been reclassified to conform to the current year's presentation. Some of the information included in the financial statement is based on management's best estimates and judgements and gives due consideration to materiality. To fulfill its reporting responsibility, the CEIC maintains a set of accounts which provides a centralized record of the CEIC financial transactions. Financial information contained in the ministerial statements and elsewhere in the Public Accounts is consistent with that in this financial statement, unless indicated otherwise.

Financial services develops and disseminates financial management and accounting policies, and issues specific directives which maintain standards of accounting and financial management. The CEIC maintains systems of financial management and internal control. Transactions are executed in accordance with prescribed regulations, within parliamentary authorities, and are properly recorded to maintain accountability of Government funds and safeguard CEIC assets. Financial management and internal control systems are augmented by the maintenance of internal audit programs. CEIC also seeks to assure the objectivity and integrity of data in its financial statement by the careful selection, training and development of qualified staff, by organizational arrangements that provide appropriate divisions of responsibility, and by communication programs aimed at ensuring that its regulations, policies, standards and managerial authorities are understood throughout the organization.

NOTES TO THE STATEMENT OF OPERATIONS
MARCH 31, 1988

1. Authority and objective

The Canada Employment and Immigration Commission was established under Section 7 of the Employment and Immigration Reorganization Act, 1977 and is a departmental corporation named in Schedule B to the Financial Administation Act. All the Commission's operating, contributions and grants expenditures are funded by budgetary lapsing authorities whereas employee benefits, annuities agents supplementary retirement benefits and the Government's contributions to the Unemployment Insurance Account and in respect of fishermen's benefits are authorized by statutory authorities. The Commission is divided into three program areas and their objectives are as follows:

Corporate and Special Services Program—To ensure the development and implementation of policies and programs, to provide strategic, operational and administrative support to enable Employment and Immigration Canada to carry out its mission and to provide for such other functions allocated to it.

Employment and Insurance Program—To further the attainment of national, economic and social goals by realizing the full productive potential of Canada's human resources, while supporting the initiatives of individuals to pursue their economic needs and more generally, their self-fulfillment through work.

Immigration Program—To administer the admission of immigrants and visitors in accordance with the economic, social, humanitarian and cultural interests of Canada.

Loans to immigrants and other classes of persons for the purpose of paying the costs of admission, transportation and reasonable living expenses are made under a non-budgetary statutory authority advanced by the Minister of Finance pursuant to the Immigration Act, Section 121. The total amount of loans outstanding shall not, at any time, exceed $90,000,000.

2. Significant accounting policies

The statement of operations was prepared using the following accounting policies:

(i) Expenditure is recorded for all goods and services received and/or performed up to March 31, in accordance with the Government's Payables at Year End accounting policy, with the exception of termination benefits and vacation pay.

(ii) Revenue is recorded on a cash basis in accordance with the Government's accounting policies.

(iii) Acquisitions of capital assets are charged to operating expenditure in the year the expenditure is incurred.

(iv) Estimated amounts for services provided without charge from other Government departments are disclosed in the statement of operations.

(v) Refunds of previous years' expenditure are recorded as revenue when received and are not deducted from expenditure.

5. Trust funds and specified purpose accounts

The Canada Employment and Immigration Commission also has the responsibility to administer and control the following trust funds and specified purpose accounts.

(a) Unemployment Insurance Account

The Unemployment Insurance Act provides for a compulsory contributory unemployment insurance program applying to all employees, subject to minor exceptions.

The Act authorizes an account in the Accounts of Canada to be known as the Unemployment Insurance Account.

The Act provides for the following to be credited to the Account: (a) premiums, fines, penalties and interest; (b) the Government share of benefits paid; (c) refunds of overpayments of benefits, and benefit repayments; (d) amounts for services rendered to other Government departments or agencies, or to the public; (e) amounts provided for any other purpose related to unemployment insurance and authorized by an appropriation administered by the Canada Employment and Immigration Commission; and (f) interest on the balance of the account at such rates as the Minister of Finance may authorize. The Act also provides that the following be charged to the account; (a) benefits paid under the Act; (b) the costs of administering the Act; and (c) the interest on advances made by the Minister of Finance.

Interest bearing loans are made to the Unemployment Insurance Account, under Section 137(1) of the Unemployment Insurance Act, as a result of deficiencies in contributions from employers and employees. The loan balance outstanding as at March 31, 1988 bears interest at rates between 7.6% and 8.9% per annum, and is repayable between April 30, 1988 and March 31, 1990.

[2] Interest bearing loans under Section 137(1) of the Unemployment Insurance Act in the amount of $1,954 million (1987—$3,606 million) were made to the Unemployment Insurance Account leaving a net deficit balance as at March 31, 1988 of $235 million (1987—$291 million).

(b) Government Annuities Account

This account was established by the Government Annuities Act, and modified by the Government Annuities Improvement Act, which discontinued sales of annuities. The account is valued on an actuarial basis each year, with the deficit or surplus charged or credited to the Consolidated Revenue Fund. The accounts of the Government Annuities Account are maintained on an accrual basis.

The purpose of the Government Annuities Act was to assist Canadians to provide for their later years, by the purchase of Government annuities. The Government Annuities Improvement Act increased the rate of return and flexibility of Government annuity contracts, and discontinued sales of annuities.

Receipts and other credits consist of premiums received, funds reclaimed from the Consolidated Revenue Fund for previously unlocated annuitants, earned interest and items transferred from previous years' revenue to cover the actuarial deficit. Payments and other charges represent matured annuities, the commuted value of death benefits, premium refunds and withdrawals, and actuarial surpluses and unclaimed items transferred to non-tax revenue. The amounts of unclaimed annuities, related to annuitants who cannot be located, are transferred to non-tax revenue.

Canadian Aviation Safety Board

MANAGEMENT REPORT

We have prepared the accompanying financial statement of the Canadian Aviation Safety Board (CASB) in accordance with the reporting requirements and standards of the Receiver General for Canada. The primary responsibility for the integrity and objectivity of data in this financial statement rests with the management of the Board.

This financial statement was prepared in accordance with the stated accounting policies set out in Note 2, on a basis consistent with that of the preceding year. Some previous year figures have been reclassified to conform to the current year's presentation. Some of the information included in the financial statement is based on management's best estimates and judgements and gives due consideration to materiality. To fulfill its reporting responsibility, the CASB maintains a set of accounts which provides a centralized record of its financial transactions. Financial information contained in the ministerial statements and elsewhere in the Public Accounts is consistent with this financial statement, unless indicated otherwise.

The CASB's financial services division develops and disseminates financial management and accounting policies, and issues specific directives which maintain standards of accounting and financial management. The CASB maintains systems of financial management and internal control. Transactions are executed in accordance with prescribed regulations, within parliamentary authorities, and are properly recorded to maintain accountability of Government funds and safeguard the Board's assets. The CASB also seeks to assure the objectivity and integrity of data in its financial statement by the careful selection, training and development of qualified staff, by organizational arrangements that provide appropriate divisions of responsibility, and by communication programs aimed at ensuring that its regulations, policies, standards and managerial authorities are understood throughout the organization.

This financial statement has been examined by the Auditor General, his role being to express an informed opinion as to whether the Board's financial statement, considered in its entirety, presents fairly, in conformity with stated accounting policies, the CASB's financial transactions.

NOTES TO THE STATEMENT OF OPERATIONS
MARCH 31, 1988

1. Authority and objective

The Canadian Aviation Safety Board was established in 1984 under the Canadian Aviation Safety Board Act and is a departmental corporation named in Schedule B to the Financial Administration Act. The objective of the Board is to advance aviation safety by: identifying safety deficiencies as evidenced by aviation occurrences; conducting independent investigations and, if necessary, public inquiries into aviation occurrences in order to make findings as to their contributing factors and causes; and reporting publicly on its investigations and public inquiries and on the findings in relation thereto and by making recommendations designed to eliminate or reduce safety deficiencies. The Board's expenditure is funded by a budgetary lapsing authority.

2. Significant accounting policies

The statement of operations has been prepared using the following accounting policies:

(a) Expenditure recognition

All expenditure is recorded on the accrual basis, in accordance with the Government's PAYE accounting policy, with the exception of termination benefits and vacation pay which are recorded on the cash basis.

(b) Revenue recognition

Revenue is recorded on the cash basis in accordance with the Government's accounting policies.

(c) Refunds of previous years' expenditure

Refunds of previous years' expenditure are recorded as revenue when received and are not deducted from expenditure.

(d) Capital purchases

Acquisitions of capital assets are charged to operating expenditure in the year of purchase.

(e) Services provided without charge by Government departments

Estimates of amounts for services provided without charge from Government departments are included in expenditures.

Canadian Centre for Occupational Health and Safety

MANAGEMENT REPORT

We have prepared the accompanying financial statement of the Canadian Centre for Occupational Health and Safety in accordance with the reporting requirements and standards of the Receiver General for Canada. The primary responsibility for the integrity and objectivity of data in this financial statement rests with the management of the Centre. In order to assure maximum objectivity and freedom from bias, the financial data contained in this financial statement has been examined by the audit committee of the Centre.

This financial statement was prepared in accordance with the stated accounting policies set out in Note 2, on a basis consistent with that of the preceding year. Some of the information included in the financial statement is based on management's best estimates and judgement and gives due consideration to materiality. To fulfill this reporting responsibility, the Centre maintains a set of accounts which provides a centralized record of the Centre's financial transactions. Financial information contained in the ministerial statements and elsewhere in the Public Accounts is consistent with this financial statement, unless indicated otherwise.

The Centre's directorate of financial services develops and disseminates financial management and accounting policies, and issues specific directives which maintain standards of accounting and financial management. The Centre maintains systems of financial management and internal control at appropriate cost. Transactions are executed in accordance with prescribed regulations, within parliamentary authorities, and are properly recorded to maintain accountability of Government funds and safeguard the Centre's assets. The Centre also seeks to assure the objectivity and integrity of data in its financial statement by the careful selection, training and development of qualified staff, by organizational arrangements that provide appropriate divisions of responsibility, and by communication programs aimed at ensuring that its regulations, policies, standards and managerial authorities are understood throughout the organization.

This financial statement has been examined by the Auditor General, his role being to express an informed opinion as to whether the Centre's financial statement, considered in its entirety, presents fairly, in accordance with stated accounting policies, the Centre's financial transactions.

Economic Council of Canada

MANAGEMENT REPORT

We have prepared the accompanying financial statement of the Economic Council of Canada in accordance with the reporting requirements and standards of the Receiver General for Canada. The primary responsibility for the integrity and objectivity of data in this financial statement rests with the Chief executive officer of the Council.

This financial statement was prepared in accordance with the accounting policies set out in Note 2, on a basis consistent with that of the preceding year. To fulfill its reporting responsibility, the Council maintains a set of accounts which provides a centralized record of the Council's financial transactions. Financial information contained in the ministerial statements and elsewhere in the Public Accounts is consistent with that in this financial statement.

The Council's financial services division develops and disseminates financial management and accounting policies, and issues specific directives which maintain standards of accounting and financial control. Transactions are executed in accordance with prescribed regulations, within parliamentary authorities, and are properly recorded to maintain accountability of Government funds and safeguard the Council's assets. Financial management and internal control systems are augmented by an internal audit function, established in compliance with the Treasury Board/Office of the Comptroller General standards for internal audit in the Government of Canada. The Council also seeks to ensure the objectivity and integrity of data in its financial statement by the careful selection, training and development of qualified staff, by organizational arrangements that provide appropriate divisions of responsibility, and by communication programs aimed at ensuring that its regulations, policies, standards and managerial authorities are understood throughout the organization.

This financial statement has been examined by the Auditor General of Canada, his role being to express an informed opinion as to whether the Council's financial statement, considered in its entirety, presents fairly, in conformity with stated accounting policies, the Council's financial transactions for the year ended March 31, 1988.

The accounting system and financial statement of the Council have evolved over the years to meet changing conditions and reporting requirements, both internal and external. With an internal computerized financial reporting and control system, the Council has realized achievements in more accurately forecasting for future initiatives and in the provision of financial information for decision-making purposes.

NOTES TO STATEMENT OF OPERATIONS
MARCH 31, 1988

1. Authority and objective

The Council was established in 1963 by the Economic Council of Canada Act and is a departmental corporation named in Schedule B to the Financial Administration Act.

The objective of the Council is to advise and recommend to the Prime Minister how Canada can achieve the highest possible levels of employment and efficient production in order that the country may enjoy a high and consistent rate of economic growth and that all Canadians may share in rising living standards.

The Council's operating expenditures are funded by a budgetary lapsing authority. Employee benefits are authorized by statutory authorities.

2. Significant accounting policies

The statement of operations has been prepared using the following accounting policies:

(a) Expenditure recognition

All expenditure is recorded on the accrual basis, in accordance with the Government of Canada's PAYE accounting policy, with the exception of termination benefits and vacation pay which are recorded on the cash basis.

(b) Capital purchases

Acquisitions of capital assets are charged to operating expenditure in the year of purchase.

(c) Services provided without charge

Estimates of amounts for services provided without charge by Government departments are included in expenditures.

(d) Refunds of previous years' expenditure

Refunds of previous years' expenditure are recorded as revenue when received and are not deducted from expenditure.

Fisheries Prices Support Board

MANAGEMENT REPORT

We have prepared the accompanying financial statements of the Fisheries Prices Support Board in accordance with the reporting requirements and standards of the Receiver General for Canada. The primary responsibility for the integrity and objectivity of data in these financial statements rests with the management of the Board.

These financial statements were prepared in accordance with the stated accounting policies set out in Note 2, on a basis consistent with that of the preceding year. Some of the information included in the financial statements is based on management's best estimates and judgments and gives due consideration to materiality. To fulfill this reporting responsibility, the Board maintains a set of accounts which provides a centralized record of the Board's financial transactions. Financial information contained in the ministerial statements and elsewhere in the Public Accounts is consistent with these financial statements, unless indicated otherwise.

The Board's financial service group develops and disseminates financial management and accounting policies, and issues specific directives which maintain standards of accounting and financial management. The Board maintains systems of financial management and internal control at appropriate cost. Transactions are executed in accordance with prescribed regulations, within parliamentary authorities, and are properly recorded to maintain accountability of Government funds and safeguard the Board's assets. Financial management and internal control systems are augmented by the maintenance of internal audit programs. The Board also seeks to assure the objectivity and integrity of data in its financial statements by the careful selection, training and development of qualified staff, by organizational arrangements that provide appropriate divisions of responsibility, and by communication programs aimed at ensuring that its regulations, policies, standards and managerial authorities are understood throughout the organization.

These financial statements have not been examined by the Auditor General. The Auditor General has however, examined financial statements of the Board prepared on an accrual basis of accounting and has expressed the opinion that such financial statements present fairly, in conformity with stated accounting policies, the Board's financial position as at March 31, 1988.

NOTES TO FINANCIAL STATEMENTS MARCH 31, 1988

1. Authority, objective and operation

The Board was established in 1944 under the Fisheries Prices Support Act and is a departmental corporation named in Schedule B to the Financial Administration Act. As authorized by the Governor in Council, the Board is empowered to purchase fishery products for its own account and to make deficiency payments to producers of such products. The Act requires that the Board, in establishing purchase prices and in determining the rate at which deficiency payments are to be made, endeavour to secure a fair relationship between the returns from fisheries and those from other occupations. The Board operates through offices of the Department of Fisheries and Oceans, with departmental staff performing certain functions of the Board. Funding of Board operations is done under lapsing authority from Parliament.

2. Significant accounting policies

The financial statements have been prepared using the following accounting policies:

(a) Expenditure recognition

All expenditure is recorded on the accrual basis, in accordance with the Government's PAYE accounting policy, with the exception of termination benefits and vacation pay which are recorded on the cash basis.

6. Canned mackerel program

In 1987-88, the Board's only activity was to act as an agent for the procurement of canned mackerel. Unlike 1986-87 this program was funded in its entirety in 1987-88 by way of an advance from the Canadian International Development Agency(CIDA). CIDA provided an advance of $3,500,000, the Board paid $2,212,718 for the acquisition, storage and delivery of the mackerel, and the balance of $1,287,282 was returned to CIDA.

Due to the nature of this agency relationship with CIDA, the Board carried out the transactions on CIDA's behalf and for CIDA's use and thus, did not hold lawful possession of the goods. As such, no sales, cost of goods sold or warehousing and handling transactions are recognized in the March 31, 1988 statement of operations in relation to this agency arrangement, except for the disposition of the opening inventory of $3,376.

7. Accounts receivable

During 1985-86, an account receivable for $168,645 was converted from a trade account receivable to a long-term receivable. A signed agreement between the producer and the Board calls for equal repayments of principal over 5 annual payments commencing in December 1987.

The agreement calls for interest to be paid from December 1984 on the outstanding balance owed to the Board. Interest is due annually on December 31 of each year and the Board has received $58,657 in interest as of December 31, 1987.

AUDITOR'S REPORT

TO THE FISHERIES PRICES SUPPORT BOARD
AND THE
MINISTER OF FISHERIES AND OCEANS

I have examined the balance sheet of the Fisheries Prices Support Board as at March 31, 1988 and the statements of operations and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the Board as at March 31, 1988 and the results of its operations and the changes in its financial position for the year then ended in accordance with the accounting policies set out in Note 2 to the financial statements applied on a basis consistent with that of the preceding year.

The Board operates through offices of the Department of Fisheries and Oceans, with departmental staff performing certain functions of the Board.

2. Accounting policies

The Board follows the accrual basis of accounting.

Administrative services provided without charge by the Department of Fisheries and Oceans are included in the cost of operations.

Inventories are recorded at the lower of cost and net realizable value.

3. Canned mackerel program

In 1987-88, the Board's only activity was to act as an agent for the procurement of canned mackerel. Unlike 1986-87 this program was funded in its entirety in 1987-88 by way of an advance from the Canadian International Development Agency (CIDA). Due to the nature of this agency relationship with CIDA, the Board carried out the transactions on CIDA's behalf and for CIDA's use and thus, did not hold lawful possession of the goods. As such, no sales, cost of goods sold or warehousing and handling transactions are recognized in the March 31, 1988 statement of operations in relation to this agency arrangement, except for the disposition of the opening inventory of $3,376.

The Board has agreed to act as an agent for CIDA again in 1988-89.

4. Accounts receivable

During 1985-86, an account receivable for $168,645 was converted from a trade account receivable to a long-term receivable. A signed agreement between the producer and the Board calls for equal repayments of principal over 5 annual payments commencing in December 1987.

Medical Research Council

MANAGEMENT REPORT

We have prepared the accompanying financial statement of the Medical Research Council in accordance with the reporting requirements and standards of the Receiver General for Canada. The primary responsibility for the integrity and objectivity of data in this financial statement rests with the management of the Council.

This financial statement was prepared in accordance with the stated accounting policies set out in Note 2, on a basis consistent with that of the preceding year. Some previous year figures have been reclassified to conform to the current year's presentation. Some of the information included in the financial statement is based on management's best estimates and judgements and gives due consideration to materiality. To fulfill this reporting responsibility, the Council maintains a set of accounts which provides a detailed record of the Council's financial transactions. Financial information contained in the ministerial statements and elsewhere in the Public Accounts is consistent with this financial statement, unless indicated otherwise.

The Council's Corporate Management Branch develops and disseminates financial management and accounting policies, and issues specific directives which maintain standards of accounting and financial management. The Council maintains systems of financial management and internal control at appropriate cost. Transactions are executed in accordance with prescribed regulations, within parliamentary authorities, and are properly recorded to maintain accountability of Government funds and safeguard the Council's assets. The Council also seeks to assure the objectivity and integrity of data in its financial statement by the careful selection, training and development of qualified staff, by organizational arrangements that provide appropriate divisions of responsibility, and by communication programs aimed at ensuring that its regulations, policies, standards and managerial authorities are understood throughout the organization.

This financial statement has been examined by the Auditor General, his role being to express an informed opinion as to whether the Council's financial statement, considered in its entirety, presents fairly, in conformity with stated accounting policies, the Council's financial transactions.

NOTES TO THE STATEMENT OF OPERATIONS
MARCH 31, 1988

1. Authority and purpose

The Medical Research Council was established in 1969 by the Medical Research Council Act and is a departmental corporation named in Schedule B to the Financial Administration Act. The objective of the Council is to help attain the quality and scale of research in the health sciences essential to the maintenance and improvement of health services. The Council's operating and grants expenditures are funded by a budgetary lapsing authority. Employee benefits are authorized by a statutory authority.

2. Significant accounting policies

The statement of operations has been prepared using the following accounting policies:

(a) Expenditure recognition

Grants and scholarships are charged to expenditure when disbursed. All operating expenditure is recorded on the accrual basis, with the exception of termination benefits and vacation pay which are recorded on the cash basis. This practice is in accordance with the Government's PAYE accounting policy.

(b) Capital purchases

Acquisitions of capital assets are charged to operating expenditure in the year of purchase.

(c) Services provided without charge by Government departments

Estimates of amounts for services provided without charge by Government departments are included in expenditures.

4. Trust funds

As provided for in Section 15.1 of the Medical Research Council Act, the Council administers a number of trust funds separately from its activities funded through parliamentary appropriations. The purpose and accounting for these funds is described below. The balance of these funds is represented by deposit with the Receiver General for Canada.

(a) In 1974, the Council received $75,000 from an anonymous donor to establish a fund. The interest received is used for the payment of grants for research in the fields of dyskinesia and torticollis. Other donations received in prior years not earmarked for specific projects have also been credited to this fund.

(b) In 1985, the Council received a distinguished award entitled "The St. Boniface General Hospital Research Foundation Award" which included an amount of $20,000. In recognition of the importance of the award, the Council, in agreement with the Foundation, decided to use the monetary portion of the award to establish a trust fund from which it could provide summer research scholarships to encourage graduate high school students, first year pre-med students and first and second year medical students to become involved in biomedical research. These awards are called "Farquharson Research Scholarships".

(c) In February 1986 the Federal Government announced, as part of a new "Matching Policy", that private sector contributors who wish to provide funds for medical research can channel their money either through universities or through the Medical Research Council. When the Council receives such monies, they must be placed in trust and disbursed in accordance with agreements between the contributor and the Council.

The transactions relating to these three funds are as follows:

6. Travel

Expenditure for travel charged to operations is related to the peer review process and was incurred by the members of 25 grant committees, 9 award committees and the staff of the Council to meet, assess and rate grant and award applications. In addition, travel expenditure incurred by the Council, its executive and standing committees and other non-staff advisory personnel is also charged to operations.

Expenditure for travel charged to administration is for the general support of the Council's administrative activities and includes meetings of ad hoc advisory groups established to study specific issues for the Council. Details are as follows:

MANAGEMENT REPORT

We have prepared the accompanying financial statements of the National Museums of Canada in accordance with the reporting requirements and standards of the Receiver General for Canada. The primary responsibility for the integrity and objectivity of data in these financial statements rests with the management of the Corporation. In order to assure maximum objectivity and freedom from bias, the financial data contained in these financial statements was derived from the financial statements as of March 31, 1988 as published in the annual report of the Corporation and that were audited by the Auditor General of Canada.

These financial statements were prepared in accordance with the accounting policies set out in Note 2. Some of the information included in the financial statements is based on management's best estimates and judgements and gives due consideration to materiality. To fulfill its reporting responsibility, the Corporation maintains a set of accounts which provides a centralized record of the Corporation's financial transactions. Financial information contained in the ministerial statements and elsewhere in the Public Accounts is consistent with that in these financial statements, unless indicated otherwise.

The Corporation's directorate of financial services develops and disseminates financial management and accounting policies, and issues directives which maintain standards of accounting and financial management. The Corporation maintains systems of financial management and internal control. Transactions are executed in accordance with prescribed regulations, within parliamentary authorities, and are properly recorded to maintain accountability of Government funds and safeguard the Corporation's assets. Financial management and internal control systems are augmented by frequent contacts between staff of the Corporation and of the Auditor General's Office. The Corporation also seeks to assure the objectivity and integrity of data in its financial statements by the careful selection, training and development of qualified staff, by organizational arrangements that provide appropriate divisions of responsibility, and by communication programs aimed at ensuring that its regulations, policies, standards and managerial authorities are understood throughout the organization.

NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED MARCH 31, 1988

1. Authority and objective

The National Museums of Canada was established by the National Museums Act in 1968 and is a departmental corporation named in Schedule B to the Financial Administration Act.

The Corporation's objective is to demonstrate, and to assist others to demonstrate, the products of nature and culture, with particular but not exclusive reference to Canada, so as to increase interest in and to disseminate knowledge of Canada's natural and cultural legacy for the enrichment of present and future generations.

The Corporation's operations comprise the National Gallery of Canada, the Canadian Museum of Civilization, the National Museum of Natural Sciences, the National Museum of Science and Technology, National Programmes, Corporate Management and Corporate Services.

Operations, capital and grants and contributions are funded by budgetary lapsing authorities and employee benefits are authorized by statutory authorities.

2. Accounting policies

(a) Expenditure

Expenditure is accounted for on the accrual basis of accounting, except for employee termination benefits, vacation pay, and trust account transactions which are accounted for on the cash basis of accounting.

(b) Revenue

Revenue is accounted for on the cash basis of accounting in accordance with Government of Canada accounting policies.

(c) Capital purchases

Capital acquisitions are charged to operating expenditure in the year of purchase.

(d) Services provided without charge

Estimated amounts for services provided without charge by Government departments are included in the operating expenditures.

(e) Refunds of previous years' expenditure

Refunds of previous years' expenditure are recorded as revenue when received and are not deducted from expenditure.

(f) Pension plan

The employees of the Corporation participate in the Public Service Superannuation Plan administered by the Government of Canada. The employees and the Corporation contribute equally to the cost of the plan. Contributions in respect of current service are expensed during the year in which services are rendered. With respect to past service, contributions are expensed when paid.

(g) Publishing and boutique operations

Operating expenditure of publishing and boutiques do not include costs relating to personnel, travel, building maintenance, rent and utilities. These costs are included as general operating expenses.

3. Parliamentary appropriations

AUDITOR'S REPORT

TO THE CHAIRMAN OF THE BOARD OF TRUSTEES
OF THE
NATIONAL MUSEUMS OF CANADA

I have examined the balance sheet of National Museums of Canada as at March 31, 1988 and the statements of operations, equity and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the Corporation as at March 31, 1988 and the results of its operations and the changes in its financial position for the year then ended in accordance with the accounting policies set out in Note 2 to the financial statements applied on a basis consistent with that of the preceding year.

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1988

1. Authority, objective and operations

The National Museums of Canada was established by the National Museums Act in 1968 and is a departmental corporation named in Schedule B to the Financial Administration Act.

The Corporation's objective is to demonstrate, and to assist others to demonstrate, the products of nature and culture, with particular but not exclusive reference to Canada, so as to increase interest in and to disseminate knowledge of Canada's natural and cultural legacy for the enrichment of present and future generations.

The Corporation's operations comprise the National Gallery of Canada, the Canadian Museum of Civilization, the National Museum of Natural Sciences, the National Museum of Science and Technology, National Programmes, Corporate Management and Corporate Services.

2. Accounting policies

(a) Basis of accounting

Expenses and revenue are accounted for using the accrual basis of accounting, except for refunds of previous years' expenditure and the trust account which are recorded on a cash basis. Parliamentary appropriations are recorded in the year to which they apply.

(b) Inventories

Inventories are valued at the lower of cost and net realizable value, except for the cost of books and pamphlets which is written down on a straight-line basis over a five-year period to take into account obsolescence.

(c) Property and equipment

Property and equipment are carried at cost and depreciated using the straight-line method over their estimated useful lives as follows:

Equipment	5 to 12 years
Building renovations	25 years
Office furniture	5 to 10 years

Expenses related to the design and development of exhibits, and the fit-up of new accommodations excluding property and equipment, are charged to operations in the year they occur.

(d) Collections

Collections constitute the major portion of the Corporation's assets but are shown at a nominal value of $1,000 on the balance sheet because of the practical difficulties in reflecting them at a meaningful value. Objects purchased for the collections of the Corporation are recorded as expenses in the year of acquisition. Objects donated to the Corporation are not recorded in the books of accounts.

(e) Services provided without charge

Amounts for services provided without charge by Government departments are included in operating expenses.

National Museums of Canada—*Continued*

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1988—*Continued*

(f) Pension plan

The employees of the Corporation participate in the Public Service Superannuation Plan administered by the Government of Canada. The employees and the Corporation contribute equally to the cost of the Plan. This contribution represents the total liability of the Corporation. Contributions in respect of current service are expensed during the year in which services are rendered. With respect to admissible past service, contributions are expensed when paid; the terms of payment are set by the applicable purchase conditions.

(g) Publishing and boutiques operations

Operating expenses of publishing and boutiques, including costs relating to personnel, travel, transportation, advertising, building maintenance, rent and utilities, are included in general operating expenses.

(h) Employee termination benefits

On termination of employment, employees of the Corporation are entitled to certain benefits provided for under their collective agreement and their conditions of employment. The cost of these benefits is expensed in the year in which they are earned.

3. Devolution

On May 21, 1987, the Minister of Communications announced the Government's decision to proceed with the phasing out of the National Museums of Canada (NMC). Consequently, the responsibilities, authority and accountability of the directors of the National Gallery of Canada, the National Museum of Science and Technology, the Canadian Museum of Civilization and the National Museum of Natural Sciences will be increased. Furthermore, legislation will be proposed to create four new institutions.

In addition, the majority of the staff, functions and resources of Corporate Services were devolved to the four museums as of April 1, 1988.

The National Programmes and associated support services provided by Corporate Services were transferred to the Department of Communications as of September 1, 1987 pursuant to a Privy Council Order (PC 1987-1776).

Appropriation Act No. 4 of 1987 authorized the transfer of $11.4 million from Vote 70 ($8.3 million) and Vote 80 ($3.1 million) of NMC to the Department of Communications. Commitments of $5.1 million were also transferred to the Department of Communications. These commitments are not reflected in the financial statements for 1987-88.

In addition to the appropriations transferred for operating expenses and grants, assets with a net book value of $2,039,000 were also transferred to the Department of Communications.

9. Purchase of a major collection

During the year, the National Museum of Natural Sciences entered into a number of agreements to purchase a privately-held mineralogical collection. The potential total cost of the project including the cost of the collection, the services of professional fund-raisers, and related developmental costs could reach $7,000,000 over a period of three years if all purchase options are exercised. In 1987-88, the actual expenditures associated with the project totalled $402,986.

10. Commitments

In addition to the agreements mentioned in Note 9, at March 31, 1988, the Corporation had entered into various agreements for a total of approximately $7,945,687. The future minimum payments during the next 2 years are as follows:

	$
1989	5,065,494
1990	2,880,193

11. Fit-up of new accommodations

(a) The Corporation has received Treasury Board approval for fit-up and exibit development funds associated with a number of new building projects. A summary of actual and approved levels of expenditures is set out below:

National Research Council of Canada

MANAGEMENT REPORT

We have prepared the accompanying financial statement of the National Research Council of Canada in accordance with the reporting requirements and standards of the Receiver General for Canada. The primary responsibility for the integrity and objectivity of data in this financial statement rests with the management of the Council.

This financial statement was prepared in accordance with the stated accounting policies set out in Note 2, on a basis consistent with that of the preceding year. Some of the information included in this financial statement is based on management's best estimates and judgements and gives due consideration to materiality. To fulfill its reporting responsibility, the Council maintains a set of accounts which provides a centralized record of the Council's financial transactions. Financial information contained in the ministerial statements and elsewhere in the Public Accounts is consistent with this financial statement, unless indicated otherwise.

The Council's finance branch develops and disseminates financial management and accounting policies, and issues specific directives which maintain standards of accounting and financial management. The Council maintains systems of financial management and internal control. Transactions are executed in accordance with prescribed regulations, within parliamentary authorities, and are properly recorded to maintain accountability of Government funds and to safeguard the Council's assets. Financial management and internal control systems are augmented by the maintenance of internal audit programs. The Council also seeks to assure the objectivity and integrity of data in its financial statement by the careful selection, training and development of qualified staff, by organizational arrangements that provide appropriate divisions of responsibility, and by communication programs aimed at ensuring that its regulations, policies, standards and managerial authorities are understood throughout the organization.

The accounting system and financial statement of the Council continue to evolve to meet the challenges of our changing environment. The Council's finance branch made further strides this past year to better its cash management practices and financial management reporting.

A new automated accounts receivable system was implemented, improving the management of the Council's receivables and speeding up the collection process through better reporting. The NRC also participated in a pilot project to test some of the latest in relational database technology. The results so far look very promising and should lead to more flexible and timely financial management reporting.

NOTES TO THE STATEMENT OF OPERATIONS
MARCH 31, 1988

1. Authority and purpose

The National Research Council of Canada was established under the National Research Council Act 1966-67 and is a departmental corporation named in Schedule B to the Financial Administration Act. The objectives of the Council are to create, acquire and promote the application of scientific and engineering knowledge to meet Canadian needs for economic, regional and social development and to promote and provide for the use of scientific and technical information by the people and Government of Canada to meet Canadian needs for economic, regional and social development. The Council's operating, capital and grant expenditures are funded through budgetary lapsing appropriations and revenue credited to vote. Employee benefits are authorized by a statutory authority.

2. Significant accounting policies

The statement of operations has been prepared using the following accounting policies:

(a) Expenditure recognition

All expenditure is recorded on the accrual basis, in accordance with the Government's PAYE accounting policy, with the exception of termination benefits and vacation pay which are recorded on the cash basis.

(b) Revenue recognition

Revenue is recorded on a cash receipts basis in accordance with the Government's accounting policies.

(c) Capital purchases

Acquisitions of capital assets are charged to operating expenditure in the year of purchase.

(d) Estimates of amounts for services provided without charge from Government departments are included in expenditures.

(e) Refunds of previous years' expenditure

Refunds of previous years' expenditure are recorded as revenue when received and are not deducted from expenditure.

MANAGEMENT REPORT

We have prepared the accompanying financial statement of the Natural Sciences and Engineering Research Council in accordance with the reporting requirements and standards of the Receiver General for Canada. The primary responsibility for the integrity and objectivity of data in this financial statement rests with the management of the Council.

This financial statement was prepared in accordance with the stated accounting policies set out in Note 2, on a basis consistent with that of the preceding year. Some of the information included in the financial statement is based on management's best estimates and judgements and gives due consideration to materiality. To fulfill this reporting responsibility, the Council maintains a set of accounts which provides a centralized record of the Council's financial transactions. Financial information contained in the ministerial statements and elsewhere in the Public Accounts is consistent with that in this financial statement, unless indicated otherwise.

The Council's directorate of finance and administration develops and disseminates financial management and accounting policies, and issues specific directives which maintain standards of accounting and financial management. The Council maintains systems of financial management and internal control. Transactions are executed in accordance with prescribed regulations, within parliamentary authorities, and are properly recorded to maintain accountability of Government funds and safeguard the Council's assets. Financial management and internal control systems are augmented by the maintenance of internal audit programs. The Council also seeks to assure the objectivity and integrity of data in its financial statement by the careful selection, training and development of qualified staff, by organizational arrangements that provide appropriate divisions of responsibility, and by communication programs aimed at ensuring that its regulations, policies, standards and managerial authorities are understood throughout the organization.

This financial statement has been examined by the Auditor General, his role being to express an informed opinion as to whether the Council's financial statement, considered in its entirety, presents fairly, in conformity with stated accounting policies, the Council's financial transactions.

The accounting system and financial statement of the Council have evolved over the years to meet the changes in the structure of the grants and scholarships programs and to give improved reporting and control of expenditures relating to those programs.

AUDITOR'S REPORT

TO THE NATURAL SCIENCES AND
ENGINEERING RESEARCH COUNCIL
AND THE
MINISTER OF STATE FOR SCIENCE AND TECHNOLOGY

I have examined the statement of operations of the Natural Sciences and Engineering Research Council for the year ended March 31, 1988. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, this financial statement presents fairly the results of operations of the Council for the year ended March 31, 1988 in accordance with the accounting policies set out in Note 2 to the financial statement applied on a basis consistent with that of the preceding year.

NOTES TO THE STATEMENT OF OPERATIONS MARCH 31, 1988

1. Authority and objective

The Council was established in 1978 by the Natural Sciences and Engineering Research Council Act, and is a departmental corporation named in Schedule B to the Financial Administration Act. Its objective is to promote and support both research and the provision of highly qualified personnel in the natural sciences and engineering. The Council's grants and scholarships and operating expenditures are funded by a budgetary lapsing authority. Employee benefits are authorized by a statutory authority.

2. Significant accounting policies

The statement of operations has been prepared using the following accounting policies:

(a) Expenditure recognition

Grants and scholarships are charged to expenditure as disbursed. All other expenditure is recorded on the accrual basis, in accordance with the Government's PAYE accounting policy, with the exception of termination benefits and vacation pay which are recorded on the cash basis.

(b) Capital purchases

Acquisitions of capital assets are charged to operating expenditure in the year of purchase.

(c) Services provided without charge

Estimates of amounts for services provided without charge from Government departments and agencies are included in expenditures.

(d) Refunds of previous years' expenditure

Refunds of previous years' expenditure are recorded as revenue when received and are not deducted from expenditure. These funds are remitted to the Receiver General for Canada.

(e) Contributions to the Public Service Superannuation Plan

Employees are covered by the Public Service Superannuation Plan administered by the Government of Canada. Contributions to the Plan are required from both the employee and the Council. Contributions with respect to current service are expensed in the current year. Contributions with respect to past service benefits are expensed when paid, generally over the remaining service lives of the employees.

Science Council of Canada

MANAGEMENT REPORT

We have prepared the accompanying financial statement of the Science Council of Canada (hereafter called Council) in accordance with the reporting requirements and standards of the Receiver General for Canada. The primary responsibility for the integrity and objectivity of data in this financial statement rests with the management of the Council. In order to assure maximum objectivity and freedom from bias, the financial data contained in this financial statement has been examined by the audit and review committee of the Council.

This financial statement was prepared in accordance with the stated accounting policies set out in Note 2, on a basis consistent with that of the preceding year. Some previous year figures have been reclassified to conform to the current year's presentation. Some of the information included in the financial statement is based on management's best estimates and judgements and gives due consideration to materiality. To fulfill this reporting responsibility, the Council maintains a set of accounts which provides a centralized record of the Council's financial transactions. Financial information contained in the ministerial statements and elsewhere in the Public Accounts is consistent with this financial statement, unless indicated otherwise.

The Council's directorate of financial services develops and disseminates financial management and accounting policies, and issues specific directives which maintain standards of accounting and financial management. The Council maintains systems of financial management and internal control at appropriate cost. Transactions are executed in accordance with prescribed regulations, within parliamentary authorities, and are properly recorded to maintain accountability of Government funds and safeguard the Council's assets. Financial management and internal control systems are augmented by the maintenance of internal audit programs. The Council also seeks to assure the objectivity and integrity of data in its financial statement by the careful selection, training and development of qualified staff, by organizational arrangements that provide appropriate divisions of responsibility, and by communication programs aimed at ensuring that its regulations, policies, standards and managerial authorities are understood throughout the organization.

This financial statement and the notes have been examined by the Auditor General, his role being to express an informed opinion as to whether the Council's financial statement, considered in its entirety, presents fairly, in conformity with stated accounting policies, the Council's financial transactions.

The accounting system and financial statement of the Council have evolved over the years to meet changing conditions. Council is constantly reviewing its policies and practices in order to improve its standards of accounting and financial management.

NOTES TO THE STATEMENT OF OPERATIONS MARCH 31, 1988

1. Authority and objective

The Council was established in 1966 by the Science Council of Canada Act and is a departmental corporation named in Schedule B to the Financial Administration Act. The Council's operating expenditure is funded by a budgetary lapsing authority. Employee benefits are authorized by a statutory authority.

The objective of the Council is to assess Canada's scientific and technological requirements, to increase public awareness of these requirements and of the interdependence of various groups in society in the development and use of science and technology, and to advise the Government on the best use of science and technology.

2. Accounting policies

(a) Expenditure recognition

All expenditure is recorded on the accrual basis, in accordance with the Government's PAYE accounting policy, with the exception of termination benefits and vacation pay which are recorded on the cash basis.

(b) Capital purchases

Acquisitions of office furniture and equipment are charged to expenditure in the year of purchase.

(c) Contributions to the Public Service Superannuation Plan

Employees participate in the Public Service Superannuation Plan administered by the Government of Canada. The employees and the Council contribute equally to the cost of the Plan. Contributions by the Council are charged to expenditure on a current basis.

(d) Services provided without charge

Estimated amounts for services provided without charge by Government departments are included in expenditures.

(e) Refunds of previous years' expenditure

Refunds of previous years' expenditure are recorded as non-tax revenue when received and are not deducted from expenditure. These funds are remitted to the Receiver General for Canada.

MANAGEMENT REPORT

We have prepared the accompanying financial statement of the Social Sciences and Humanities Research Council in accordance with the reporting requirements and standards of the Receiver General for Canada. The primary responsibility for the integrity and objectivity of data in this financial statement rests with the management of the Council. In order to assure maximum objectivity and freedom from bias, the financial data contained in this financial statement has been examined by the audit and review committee of the Council.

This financial statement was prepared in accordance with the stated accounting policies set out in Note 2, on a basis consistent with that of the preceding year. Some of the information included in the financial statement is based on management's best estimates and judgements and gives due consideration to materiality. To fulfill this reporting responsibility, the Council maintains a set of accounts which provides a centralized record of the Council's financial transactions. Financial information contained in the ministerial statements and elsewhere in the Public Accounts is consistent with this financial statement, unless indicated otherwise.

The Council's directorate of financial services develops and disseminates financial management and accounting policies, and issues specific directives which maintain standards of accounting and financial management. The Council maintains systems of financial management and internal control at appropriate cost. Transactions are executed in accordance with prescribed regulations, within parliamentary authorities, and are properly recorded to maintain accountability of Government funds and safeguard the Council's assets. Financial management and internal control systems are augmented by the maintenance of internal audit programs. The Council also seeks to assure the objectivity and integrity of data in its financial statement by the careful selection, training and development of qualified staff, by organizational arrangements that provide appropriate divisions of responsibility, and by communication programs aimed at ensuring that its regulations, policies, standards and managerial authorities are understood throughout the organization.

This financial statement has been examined by the Auditor General, his role being to express an informed opinion as to whether the Council's financial statement, considered in its entirety, presents fairly, in conformity with stated accounting policies, the Council's financial transactions.

1. Authority and objective

The Council was established in 1977 by the Social Sciences and Humanities Research Council Act and is a departmental corporation named in Schedule B to the Financial Administration Act. The objective of the Council is to promote and assist research and scholarship in the social sciences and humanities.

The operating and grants expenditures are funded by budgetary lapsing authorities. Employee benefit plans contributions are authorized by a statutory authority.

2. Accounting policies

The statement of operations has been prepared using the following accounting policies:

(a) Expenditure recognition

Grants are charged to expenditure when disbursed. Operating expenditure is recorded on an accrual basis, in accordance with the Government's Payables at Year End accounting policy, except for employee termination benefits and vacation pay which are recorded on the cash basis.

(b) Capital purchases

Acquisition of office furniture and equipment is recorded as operating expenditure in the year of purchase.

(c) Services provided without charge by other departments

Estimates of amounts for services provided without charge by other Government departments are included in operating expenditures.

(d) Refunds of previous years' expenditure

Refunds of previous years' expenditure are recorded as revenue when received and are not deducted from expenditure.

(e) Pension plan

Employees participate in the Public Service Superannuation Plan administered by the Government of Canada. The employees and the Council contribute equally to the cost of the Plan. Council's contributions are charged to expenditure on a current basis.

Balance, end of year, represented by deposits in the Consolidated Revenue Fund in the name of the Council	6	18

(d) Matching grants: Incentive payment

The Government's objectives in introducing the matching policy are to increase, in partnership with the private sector, the level of funding for university research, and to encourage stronger research collaboration between the two sectors.

When the matching funds policy was developed, the Social Sciences and Humanities Research Council indicated its intention to pay the universities an incentive based on the matching grants claimed by the Council for the first two years of the program. For the first year (1987-88) these incentive payments to universities totalled $841,000.

5. Commitments

Payment of grants and scholarships extending in future years are subject to the provision of funds by Parliament. Future years awards adjudicated prior to March 31, 1988 are payable as follows:

	(in millions of dollars)
1989	53.9
1990	14.7
Subsequent years	5.2

The National Battlefields Commission

MANAGEMENT REPORT

We have prepared the accompanying financial statement of the National Battlefields Commission in accordance with the reporting requirements and standards of the Receiver General for Canada. Management is responsible for the integrity and objectivity of the financial information in this report. The role of the commissioners is to ensure that management fulfills its duty regarding financial information and internal control.

This financial statement was prepared according to the accounting policies set out in Note 2 on a basis consistent with that of the preceding year. Some of the information included in the financial statement is based on management's best estimates and judgments and gives due consideration to materiality. To fulfill its reporting responsibility management maintains a system of internal control to assure that the financial information is reliable and that the assets are safeguarded. Transactions are executed in accordance with prescribed regulations, within parliamentary authorities, and are properly recorded to maintain accountability of Government funds and safeguard the Council's assets. Financial information contained in the ministerial statements and elsewhere in the Public Accounts is consistent with that in this financial statement, unless indicated otherwise. The Commission also seeks to assure the objectivity and integrity of data in its financial statement by the careful selection, training and development of qualified staff, by organizational arrangements that provide appropriate divisions of responsibility, and by communication programs aimed at ensuring that its regulations, policies, standards and managerial authorities are understood throughout the organization.

The Auditor General performed an audit on the financial statement for the year ended March 31, 1988 according to generally accepted auditing standards, his role being to express an informed opinion to see if the financial statement presents fairly the financial transactions of the National Battlefields Commission for this period.

The opinion of the Auditor General is attached.

The National Battlefields Commission—*Concluded*

NOTES TO THE STATEMENT OF OPERATIONS
MARCH 31, 1988

1. Authority and objective

The Commission was established in 1908 under an Act respecting The National Battlefields at Quebec for the purpose of acquiring, preserving and developing an historic battlefields park at Quebec.

The Commission is a departmental corporation named in Schedule B to the Financial Administration Act.

2. Significant accounting policies

The statement of operations has been prepared in accordance with the following accounting policies:

(a) Expenditures are recorded on an accrual basis, except for employee termination benefits and annual leaves which are accounted for when paid.

(b) Acquisitions of fixed assets, supplies and small tools are charged to operating expenditures in the year of purchase.

(c) Expenditures include estimated amounts for services provided without charge by a Government department and for contributions to employee benefit plans funded by the statutory vote of the Parks Canada Program.

(d) Receipts are recorded on a cash basis.

(e) Contributions to the superannuation plan administered by the Government of Canada, in respect of current and admissible past services, are charged to expenditures when paid. All employees of the Commission participate in this plan. The employees and the Commission contribute equally to the cost of the plan. The contributions represent the total liability of the Commission under the plan.

3. Parliamentary appropriation

	1988	1987
	$	$
National Battlefields Commission— Operating expenditures		
Vote 30	2,055,000	2,332,000
Lapsed	(2,622)	(81,536)

Less: non-tax revenue	(21,984)	(37,280)
Net cost of operations	2,168,394	2,298,966

4. Supplies inventory

As at March 31, 1988, the supplies inventory held by the Commission was valued at $37,635 ($37,352 as at March 31, 1987). The value of the inventory has been established using the weighted average cost method.

5. Fixed assets

The cost of fixed assets under the responsibility of the Commission is as follows:

	March 31, 1987	Additions	Disposals	March 31, 1988
	$	$	$	$
Land	724,710			724,710
Roadways, driveways and landscaping	1,029,431	64,673		1,094,104

	2,975,258	160,371	12,795	3,122,834

6. Special land and historical object purchase fund

Funds have been received from provincial and municipal governments and other administrations for the purpose of acquiring certain land and historical objects. These funds, together with revenue earned from the investment of such funds, are recorded in a special fund. As at March 31, 1988, the balance of this special fund amounts to $141,917 ($132,041 as at March 31, 1987) and is on deposit with the Receiver General for Canada. Interest earned during the year then ended amounted to $9,876 ($9,281 in 1987).

7. Ex-gratia payments

It has been decided to retain the exemption from grants in lieu of real estate taxes on federally owned park land in urban areas contained in the Municipal Grants Act. To compensate for the cessation of grants previously paid, the Treasury Board has approved ex-gratia payments corresponding to the 1985 municipal taxes for the year 1985-86, no more than $^2/_3$ of those taxes for the year 1986-87 and no more than $^1/_3$ of those taxes for the year 1987-88, with payments to cease thereafter.

8. Contractual obligation

In the course of its activities, the Commission has entered into a maintenance contract of a total value of $372,800 including the renewed option year. The annual payments under this agreement are as follows:

	$
1988-89	119,000
1989-90	123,800
1990-91	130,000

9. Contingent liabilities

In connection with its operations, the Commission is the defendant in certain pending claims and lawsuits. It is the opinion of management that these actions will not result in any material liabilities to the Commission.

FINANCIAL STATEMENTS OF OTHER ENTITIES

Agricultural Products Board

MANAGEMENT REPORT

In connection with the recording of financial transactions in the Accounts of Canada and the reporting of financial information to be included in the Public Accounts, relating to Agricultural Products Board for the year ended March 31, 1988, we make the following representations, based on the best of our knowledge and belief.

We have prepared the accompanying financial statements of the Agricultural Products Board in accordance with the reporting requirements and standards of the Receiver General for Canada. The responsibility for the integrity and objectivity of data in these financial statement rests with the Board.

These financial statements were prepared in accordance with the accounting policies set out in Note 2, on a basis consistent with that of the preceding year. Some of the information included in these financial statements are based on management's best estimates and judgements and gives due consideration to materiality. To fulfill its reporting responsibility, the Board maintains a set of accounts which provides a centralized record of the Board's financial transactions. Financial information contained in the ministerial statements and elsewhere in the Public Accounts is consistent with that in these financial statements, unless indicated otherwise.

The Board maintains systems of financial management and internal control. Transactions are executed in accordance with prescribed regulations, within parliamentary authorities, and are properly recorded to maintain accountability of Government funds and safeguard the Board's assets. Financial management and internal control systems are augmented by periodic internal audits. The Board also seeks to assure the objectivity and integrity of data in its financial statements by the careful selection, training and development of qualified staff, by organizational arrangements that provide appropriate divisions of responsibility, and by communication programs aimed at ensuring that its regulations, policies, standards and managerial authorities are understood throughout the organization.

AUDITOR'S REPORT

TO THE MINISTER OF AGRICULTURE

I have examined the balance sheet of the Agricultural Products Board as at March 31, 1988 and the statements of operations and equity for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the Board as at March 31, 1988 and the results of its operations and the changes in its equity for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

As explained in Note 3, the Board has entered into an agreement requiring that an agent provide a trust account in a chartered bank for the receipt and disbursement of funds received from the Board and of funds received from the sale of grapes in respect of the Surplus 1986 Ontario Grapes Program. During the year ended March 31, 1987, an amount of $4,360,000, recorded as a use of parliamentary appropriation by the Board, was deposited in this trust account and disbursed for purposes of the Program. During the year ended March 31, 1988, a further $2,951,969 (1987—$1,104,251) comprising proceeds from the sale of grapes, refunds of processing costs and interest was also deposited to this account. Of this latter amount, $1,943,686 (1987—$914,939) was later disbursed from the trust account for purposes of the Program. The Agricultural Products Board Act requires that all expenditures for the purposes of the Act be paid out of moneys appropriated by Parliament. The Financial Administration Act requires that public money be deposited to the credit of the Receiver General.

In addition, as explained in Note 6, the Board has exceeded, by $121,000, the limit for losses authorized by the Governor in Council in respect of the Surplus 1986 Ontario Grapes Program.

In my opinion, because the Board has entered into an agreement which resulted in a trust account being maintained for the receipt and disbursement of public money and because the Board has exceeded the limit for losses authorized by the Governor in Council in respect of the Surplus 1986 Ontario Grapes Program as described in the preceding two paragraphs, the related transactions of the Board that have come to my notice during my examination of the financial statements have not been in accordance with the Appropriation Acts for 1987-88, the Financial Administration Act and regulations and the Agricultural Products Board Act.

NOTES TO FINANCIAL STATEMENTS MARCH 31, 1988

1. Authority and objective

The Agricultural Products Board (the Board), which was established in 1951, operates under the authority of the Agricultural Products Board Act and comprises four members appointed by the Governor in Council.

The objective of the Board is to stabilize the prices of agricultural commodities through the purchase and sale of surplus commodities in times of depressed markets.

2. Accounting policies

The Board follows the accrual basis of accounting.

Inventories are valued at the lower of cost and net realizable value.

A statement of changes in financial position has not been presented since the Board's financing activities are disclosed in the statement of equity and Note 3.

3. Monies administered in trust

The Board has entered into agreements with the Ontario Grape Growers' Marketing Board (OGGMB) requiring that the OGGMB provide, through a public accounting firm, accounting services to the Board and trust accounts in a chartered bank for the receipt and disbursement of funds received from the Board, funds from the sale of surplus products and funds received from the Province of Ontario in respect of the Surplus 1986 and 1987 Ontario Grapes Programs.

For the Surplus 1986 Ontario Grapes Program, an amount of $4,360,000 recorded as a use of parliamentary appropriation by the Board for the year ended March 31, 1987, and $1,793,000 received from the Province during the same year, were deposited in a trust account. For the year ended March 31, 1988, a further $2,951,969 (1987—$1,104,251) comprising proceeds from the sale of surplus products, refunds of processing costs and interest was also deposited to this account. Of this latter amount, $1,943,686 (1987—$914,939) was later disbursed from the trust account for purposes of the Program.

For the Surplus 1987 Ontario Grapes Program, an amount of $2,760,000 recorded as a use of parliamentary appropriation by the Board, and $2,760,000 from the Province, were deposited in a trust account for disbursements for the purposes of the Program. A further $410,356 comprising proceeds from the sale of surplus products and interest was deposited to separate trust accounts established for receipts and the Board's share was periodically forwarded for deposit to the credit of the Receiver General.

4. Inventories

	$	$	$	$
Grape products	4,252,914	2,028,184	6,734,862	3,741,332

The provision of $2,224,730 (1987—$2,993,530) for write-down of inventories to their net realizable value is reflected in the statement of operations.

5. Long-term notes receivable

Date of maturity	Interest terms	1988	1987

May 4, 1988			450,000
		617,888	1,225,522

6. Losses in excess of the amount authorized

The Board has incurred losses to March 31, 1988 of $121,000 in excess of the maximum amount authorized by the Governor in Council in respect of the Surplus 1986 Ontario Grapes Program. The Board will seek Governor in Council approval for losses incurred in excess of the maximum amount originally approved.

7. Comparative figures

Certain comparative figures have been reclassified to conform with the presentation adopted in the current year.

MANAGEMENT REPORT

We have prepared the accompanying financial statements of the Board in accordance with the reporting requirements and standards of the Receiver General for Canada. The primary responsibility for the integrity and objectivity of data in these financial statements rests with the management of the Board.

These financial statements were prepared in accordance with the stated accounting policies set out in Note 2, on a basis consistent with that of the preceding year. Some of the information included in the financial statements is based on management's best estimates and judgements and gives due consideration to materiality. To fulfill this reporting responsibility, the Board maintains a set of accounts which provides a centralized record of the Board's financial transactions.

The Medical Research Council provides secretarial and other administrative and technical services to the Board, including maintaining systems of financial management and internal control. Transactions are executed in accordance with the Queen Elizabeth II Canadian Research Fund Act and are properly recorded to maintain accountability of Government funds and to safeguard the Board's assets.

These financial statements have been examined by the Auditor General, his role being to express an informed opinion as to whether the Board's financial statements, considered in its entirety, presents fairly, in conformity with stated accounting policies, the Board's financial transactions.

NOTES TO FINANCIAL STATEMENTS MARCH 31, 1988

1. Authority and purpose

The Queen Elizabeth II Canadian Fund to Aid in Research on the Diseases of Children was established by the Queen Elizabeth II Canadian Research Fund Act in 1959 to assist individuals or organizations to undertake or carry on research into the diseases of children, and the causes, prevention and treatment of such diseases. The Act provided for an initial one million dollar appropriation from the Consolidated Revenue Fund and established the Board of Trustees, consisting of a Chairman and six other trustees appointed by Her Majesty by commission under the Great Seal. The Board manages and administers the Fund in accordance with and subject to the Act.

2. Accounting policies

Revenue from, and investment in, Government of Canada securities

The investment in Government of Canada securities is recorded at cost. All gains or losses, including any premium or discount on acquisition, are recognized as revenue when the securities are sold. Interest income is recorded on an accrual basis.

Scientist awards and other expenses

Scientist awards are provided for in the year the awards are approved. Any subsequent increase or decrease in an award is accounted for in the year the increase or decrease is approved. Any awards cancelled subsequent to the year of approval are recognized as revenue in the year of cancellation. Refunds of unspent awards are recorded as revenue when received. Other expenses are recorded on an accrual basis.

Services provided without charge

The Medical Research Council provides the Board, without charge, with such secretarial and other administrative and technical services and facilities as are required for the purposes of the Act.

3. Queen Elizabeth II Visiting Professorships

At a Board of Trustees meeting on March 20, 1985, a decision was taken not to offer any new scientist awards for the time being. At the same meeting, the Board approved the establishment of a Lectureship Award, to be known as the Queen Elizabeth II Visiting Professorship, to enable Canadian departments of pediatrics to invite scientists of international calibre to visit their departments. This is designed to help strengthen the departments' scientific and research efforts in childhood diseases. The first awards were made in 1986-87.

Under the terms of the Act, the Board may invest any moneys of the Fund in bonds or other securities of the Government of Canada and may sell any such bonds and securities. The securities held at March 31, 1988 bear interest at rates ranging from 6.75% to 11.14% a year. Since interest on Government of Canada residuals is paid only at maturity, the market price of these residuals takes into account accrued interest, current prevailing interest rates and the term to maturity.

Canadian Grain Commission

MANAGEMENT REPORT

We have prepared the accompanying financial statement of the Canadian Grain Commission in accordance with the reporting requirements and standards of the Receiver General for Canada. The primary responsibility for the integrity and objectivity of data in this financial statement rests with the management of the Commission.

This financial statement was prepared in accordance with the accounting policies set out in Note 2, on a basis consistent with that of the preceding year. Previous year figures have been reclassified to conform to the current year's presentation. To fulfill its reporting responsibility, the Commission maintains a set of accounts which provides a centralized record of the Commission's financial transactions. Financial information contained in the ministerial statements and elsewhere in the Public Accounts is consistent with that in this financial statement, unless indicated otherwise.

The Department of Agriculture's directorate of financial services develops and disseminates financial management and accounting policies, and issues specific directives which maintain standards of accounting and financial management. The Commission maintains systems of financial management and internal control. Transactions are executed in accordance with prescribed regulations, within parliamentary authorities, and are properly recorded to maintain accountability of Government funds and safeguard the Commission's assets. Financial management and internal control systems are augmented by the maintenance of internal audit programs. The Commission also seeks to assure the objectivity and integrity of data in its financial statement by the careful selection, training and development of qualified staff, by organizational arrangements that provide appropriate divisions of responsibility, and by communication programs aimed at ensuring that its regulations, policies, standards and managerial authorities are understood throughout the organization.

This financial statement has been examined by the Auditor General, his role being to express an informed opinion as to whether the financial statement, considered in its entirety, presents fairly, in conformity with stated accounting policies, the Commission's financial transactions.

The accounting system and financial statement of the Commission have evolved over the years to meet changing conditions.

NOTES TO STATEMENT OF OPERATIONS
MARCH 31, 1988

1. Authority and objective

The Canadian Grain Commission was established under Section 3 of the Canada Grain Act (1970) to establish and maintain standards of quality for Canadian grain and regulate grain handling in Canada, to ensure a dependable commodity for domestic and export markets. The Canadian Grain Commission operates under lapsing authority however, there are some personnel costs covered by statutory authorities.

The Commission exercises certain responsibilities under the following Acts and associated regulations in addition to the Canadian Grain Act:

Financial Administration Act
Grain Futures Act
Weights and Measures Act
Western Grain Stabilization Act
Western Grain Transportation Act
Inland Water Freight Rates Act

2. Significant accounting policies

The statement of operations has been prepared using the following accounting policies:

(a) Expenditure recognition

Expenditure is recorded on the accrual basis for all goods received and services performed up to March 31, 1988, with the exception of termination payments and vacation pay which are recorded on the cash basis.

(b) Revenue recognition

Revenue is recorded on a cash basis in accordance with Government of Canada accounting policies. Revenue is credited directly to non-tax revenue.

(c) Capital purchases

Acquisitions of capital assets are charged to operating expenditure in the year of purchase.

(d) Amounts representing services provided without charge from Government departments are included in expenditures.

(e) Refunds of previous years' expenditure are recorded as revenue when received and are not deducted from expenditure.

NOTES TO STATEMENT OF OPERATIONS MARCH 31, 1988—*Concluded*

4. Accounts receivable

As at March 31, 1988, accounts receivable from outside parties for services provided by the Commission were $3,648,026 (1987—$4,078,239).

5. Lease commitments

Lease commitments under operating leases with terms of more than one year total $9,416,597. The future aggregate minimum lease payments by fiscal year are as follows:

	$
1989	2,440,858
1990	2,305,441
1991	2,278,315
1992	2,179,124
1993 and on	212,859

6. Contingent liabilities

The Commission has exercised its powers under Sections 36 and 38 of the Canada Grain Act in revoking licences which included the realization of posted securities. As a result, various claims and lawsuits have been brought against the Commission.

The Commission was given notice of a statement of claim that names the Commission as one of several Government departments who allegedly were negligent in the manner of testing of toxins contained in the winter wheat crops of 1980. Damages are claimed for storage costs and transportation costs incurred by reason of the alleged negligence.

In the opinion of management and legal counsel the losses, if any, cannot be determined at this time. Accordingly, no provision has been made in the accounts of the Commission.

Settlement, if any, that may be made with respect to these actions, is expected to be accounted for as an operating expenditure in the year in which the settlement occurs.

TAXATION

Remissions of $1,000 and more:

Ascot Plaza, Hodusa Plaza, Pascoe Plaza	(2)

PC 1987-2088, dated October 8, 1987, authorized the remission of income tax, interest and penalties for the 1986 taxation year and subsequent taxation years payable under the Income Tax Act to certain limited partners of Ascot Plaza, Hodusa Plaza and Pascoe Plaza who acquired an interest in named limited partnerships before November 1, 1986. It is estimated the maximum net present value of the deferred taxes is $300,000.

Ashraff, Anne E	(2)

PC 1988-11/635, dated March 30, 1988, authorized the remission of income tax of $2,311 plus relevant interest on a 1981 statute-barred return. The Department had consented to a judgment relating to the deductibility of rental expenses by the taxpayer's partner. The remission was recommended to place the taxpayer on the same basis as the partner.

Cooke, Patrick M	(2)

PC 1988-8/635, dated March 30, 1988, authorized the remission of income tax of $2,924 and $334 for taxation years 1981 and 1982 respectively. This order conditionally remitted on the grounds of administrative error statute-barred income tax on Registered Pension Plan Contributions which could not benefit from a tax free rollover to an RRSP. The condition is that the funds minus the pension deduction must be transferred to an RRSP before 1988.

Dufresne, André	1,648

PC 1987-3/1052, dated May 21, 1987, authorized the remission of 1978 income tax of $841, a penalty of $42 and interest of $765, in respect of a Workmen's Compensation award and receipt of non-taxable payments.

Ferris, Robert	(2)

PC 1988-12/635, dated March 30, 1988, authorized the remission of income tax of $5,895 plus all relevant interest on a 1986 lump sum settlement received in a lawsuit concerning pension arrears. The remission was granted as the timing of the receipt was beyond the control of the taxpayer and to report the entire amount in one year would represent a significant financial setback.

Harris, G C	2,492

PC 1987-4/1147, dated June 4, 1987, authorized the remission of interest on income tax of $716, $1,496, $258 and $22 for the taxation years 1980, 1981, 1982 and 1983, because of departmental administrative error in reporting employment income, on a fiscal year basis.

Hebert, Georgie	10,201

PC 1987-5/2003, dated September 24, 1987, authorized the remission of income tax for the years 1976 to 1981 of $1,523, $967, $743, $1,556, $1,993 and $2,890 respectively plus interest of $529, with respect to disability insurance income and the application of ITAR 19(1).

Jennings, Elvin	2,492

PC 1987-4/2003, dated September 24, 1987, authorized the remission of income tax of $2,211 and interest of $281 for the taxation year 1985, with respect to the application of disability benefits.

Kilborn Ltd	43,974

PC 1987-1284, dated June 24, 1987, authorized the remission of income tax of $34,286, interest of $127 and penalty of $9,561 payable under Part I of the Income Tax Act and the Income Tax Regulations, in respect of dividends paid in March 1982.

Kiniak, Peter	1,422

PC 1987-10/1787, dated August 27, 1987, authorized the remission of income tax of $1,347 plus interest of $75 for the taxation year 1985, with respect to the application of Canada Pension Plan Benefits.

Morais, Charles	(2)

PC 1988-9/635, dated March 30, 1988, authorized the remission of income tax of $3,334 plus a late filing penalty of $219 and all relevant interest in respect of an administrative error 1980 statute-barred tax, penalty and interest assessed on a pension benefit transferred directly to an RRSP.

Morrison, George (The Late)	1,084

PC 1987-6/2003, dated September 24, 1987, authorized the remission of income tax of $69 and $1,015 for the taxation years 1980 and 1981 respectively, with respect to non-taxable payments received under a wage loss replacement plan.

Victoria Express	(2)

Debts, obligations and claims written off or forgiven

There are three types of approval/authority for the write-off or forgiveness of debts, obligations and claims:

(i) Ministerial approval represents authority given to Ministers under the Financial Administration Act (FAA) or other Acts of Parliament as described in (i)(a) and (b)—

(a) Section 18(1) of the FAA gives Ministers, through Treasury Board regulations, general authority to approve the write-offs, from the memorandum departmental accounts receivable, of any debt other than overpayments of salaries, wages, and employment-related allowances, obligation or claim that does not exceed $25,000.

(b) Other Acts of Parliament (eg. Bankruptcy Act) give Ministers general authority to approve the write-off or forgiveness of specific debts, obligations or claims.

(ii) Treasury Board approval—Section 18(1) of the FAA allows a Minister, with specific Treasury Board approval, to write-off, from memorandum departmental accounts receivable, any debt, obligation or claim that exceeds $25,000. Certain debts, obligations or claims less than $25,000, such as the overpayment of salaries, wages, and employment-related allowances, may need Treasury Board approval to be written off.

(iii) Parliamentary authority—

(a) Section 18(2) of the FAA requires that where a debt, obligation or claim included in the Statement of Assets and Liabilities of Canada is to be written off, the write-off must be authorized by Parliament as a budgetary item in an Appropriation Act or some other Act.

(b) Section 18(5) of the FAA specifies that any debt, obligation or claim of a Crown corporation due to the Government may be forgiven by being included in a budgetary vote of an Appropriation Act.

(c) Ministers may also be given specific approval to forgive a debt, obligation or claim as provided by Parliament in a specific Act.

The type of accounts and the type of deletions are indicated by the following codes:

Statement of accounts receivable

In accordance with its accounting policy, the Government generally reports revenue in the year in which it is received. Therefore, amounts representing billed but uncollected and/or unbilled and accrued financial claims arising from amounts owed to a Government body for self-assessed taxes, use of its assets or from proceeds for provision of services and interest capitalized, deferred, due and accrued, are not recorded as accounts receivable in the accounts of Canada, nor are they reported as assets on the Statement of Assets and Liabilities. These items, however, are controlled through memorandum accounts kept by Government bodies and are presented in this statement.

Outside parties represents accounts receivable from outside the Government. Allowance for doubtful accounts represents the total accounts receivable which are scheduled for write off or forgiveness plus an allowance for doubtful accounts based on the best estimate of all or any amounts which may not be collected. Internal to the Government are amounts of accounts receivable collectable from Government bodies. A Government body is an organization which is part of the Government of Canada as an accounting entity.

Items shown as Internal to the Government do not represent cash to be received. They are memorandum amounts and are not included in the total net accounts receivable.

Accounts receivable written-off or forgiven are included in Section 3 of this volume (Statement of debts, obligations and claims written-off or forgiven).

Accounts receivable as at March 31

Notes to statement of accounts receivable

(1) Included in the statement is corporate Part VII tax of $13,506,122 which is refundable when investment tax credits or share-purchase tax credits are earned by the corporations.

(2) This statement includes receivables of the Unemployment Insurance Account. National Revenue—Taxation has reported $50,845,562 in Unemployment insurance accounts receivable as at March 31, 1988 ($49,516,146 as at March 31, 1987) which represent deductions at source.

(3) Not included in the statement are contingent receivables estimated at $27,735,919 for customs duties and excise taxes relating to motor vehicles and motor vehicle parts imported by vehicle manufacturers who have not fully complied with conditions specified under automotive incentive programs.

(4) The excise taxes and duties accounts receivable (outside parties and internal to the Government) amount to $285,357,000 and are summarized in the following table:

	Customs	Excise	Total
	$	$	$
Active	155,178,000	95,515,000	250,693,000
This category represents accounts other than bankruptcies and receiverships upon which collection action is being taken, and accounts being disputed or appealed which are awaiting a decision under governing acts or regulations. There are 27,921 such accounts.			
Active/uncollectable	1,793,000	32,871,000	34,664,000
This category includes accounts in bankruptcy or receivership awaiting finalization by trustees or receivers, and accounts awaiting approval for deletion by the Departmental Uncollectable Accounts Committee. There are 1,803 such accounts.			
	156,971,000	128,386,000	285,357,000

(5) During the year, total write-offs and forgiveness of accounts receivable as detailed in Section 3 amounted to $2,289 million. That statement also includes Parliamentary write-offs and forgiveness of loans, investments and advances which totalled $1,934 million.

Construction and acquisition of land, buildings and works

This statement provides total current year's expenditure by program, with details for contracts of $250,000 or over ($25,000 or over for cost plus contracts). In this statement:

- one asterisk (*) adjacent to amounts in the expenditures to date column indicates that amounts reported in previous year's Public Accounts have been amended in the current year;
- two asterisks (**) adjacent to name and location of contractor indicate the contracts that have been awarded through the Department of Public Works;
- three asterisks (***) adjacent to amounts in the amount of contract column indicate cost plus contracts; and
- an (*f*) adjacent to amounts in the expenditures to date column indicates the contracts completed in the current year.

A summary of total current year's expenditure (standard object 08) by department and agency is provided in Section 1 (Table 5) of Volume II (Part I).

* Amends reporting in previous year's Public Accounts.
** Awarded through Public Works.
*** Cost plus contract.
(*f*) Contract completed.
(1) Agriculture, a contract related to an other contract greater than $250,000.
(2) The amount of $592,937 in the Department of Environment represents a joint project between Administration Program and Parks Program. Current year expenditures by Administration Program were $13,729 and by Parks Program $579,208.
(3) Joint project between Fisheries and Oceans and Transport Canada. Expenditures by Fisheries and Oceans were $8,601,588 and by Transport Canada $2,960.
(4) Current year expenditures for XV Olympic Winter Games Program in the Department of National Health and Welfare are reported on a gross basis. The department received donations in the amount of $5,407,714 which have been credited to standard object 08, but cannot be allocated to the individual contracts.
(5) The amount of $363,520,399 includes the Public Works Revolving Fund. Since the Public Works Revolving Fund provides construction services on a cost recoverable basis to other programs, departments and agencies of the Government of Canada, detailed information for inclusion in this statement is therefore reported by the entities that received such services.

Construction and/or acquisition of machinery and equipment

This statement provides an analysis of the current year's expenditure (standard object 09) by main category of machinery and equipment for the year ended March 31, 1988. A summary of total current year's expenditure by department and agency is provided in Section 1 (Table 5) of Volume II (Part I).

Transfer Payments

A transfer payment is a grant, contribution or other payment made by the Government for which no goods or services are received, and which is made for the purpose of furthering program objectives. This Section presents, for each program, the total expenditure by recipient or class of recipients, together with a detailed listing of individual payments of $50,000 or over. A summary of total current year's expenditure (standard object 10) by department and agency is provided in Section 1 (Table 5) of Volume II (Part I).

Federal contributions in respect of provincial and territorial health care services are included under the established programs financing arrangements found in Part VI of the Federal-Provincial Fiscal Arrangements and Federal Post-Secondary Education and Health Contributions Act, 1977. Total entitlements for each province are based on a per capita amount prescribed in legislation. The amount is escalated annually in line with the growth of the gross national product and population. The tax contribution is the current value of a legislatively prescribed number of tax points (and the fiscal equalization associated with them). Cash payments are the difference between total entitlements and the tax contribution plus adjustments related to prior years payments. The equalization associated with the tax transfer is paid under the fiscal equalization program administered by the Department of Finance. The amount of these cash and tax transfers in 1987-88 is shown above.

The payment of cash contributions is also subject to provisions of the Canada Health Act. The Act requires that the provinces not permit extra billing by a medical practioner or a dentist or the assessment of specified user charges by an hospital. Should a province fail to comply with these conditions, the Act provides for automatic deductions from the cash contributions. However, if prior to March 31, 1987, a province eliminates extra-billings or users charges, the amount deducted was to be refunded. During 1987-88 New Brunswick received a refund of $353,000.

Federal contributions in respect of provincial and territorial health care services are included under the established programs financing arrangements found in Part VI of the Federal-Provincial Fiscal Arrangements and Federal Post-Secondary Education and Health Contributions Act, 1977. These contributions take the form of a transfer of a predetermined number of tax points (and associated equalization) which are estimated at 5.8 billion in 1987-88, together with the payment of a predetermined base amount of cash escalated on the basis of growth of the gross national product and population (as shown above). The payment of cash contributions is also subject to various provisions of the Canada Health Act. In order that a full cash contribution may be paid, provinces must satisfy program criteria respecting public administration, comprehensiveness, universality, portability and accessibility throughout the fiscal year, and in addition, give recognition to the contributions and payments made by Canada under the Canada Health Act.

Additionally, the Act requires that the provinces must not permit extra billing by a medical practitioner or a dentist or the assessment of user charges by a hospital. Should a province fail to comply with these conditions, the Act provides for automatic deductions from cash contributions.

The Act also provides that if, prior to March 31, 1987, a province eliminates extra-billing or user charges, the amounts deducted shall be refunded to the province.

All provinces have taken action to eliminate extra-billing or user charges as defined under the Canada Health Act. All refunds have been made.

The transaction during the year with respect to the reimbursement of extra-billing was as follows:

The Canada Assistance Plan Act authorizes the government to enter into agreements with provinces and territories for sharing the costs of social assistance provided to persons in need, and welfare services provided to persons in need or likely to be in need. The rate of the federal contribution is 50% of the eligible and shareable costs.

(1) The Province of Quebec has opted to receive special funding in lieu of cost sharing under the Canada Assistance Plan, in accordance with Part VII for Special Welfare programs of the Federal-Provincial Fiscal Arrangements and Federal Post-Secondary Education and Health Contributions Act, 1977. Under these provisions, the Province of Quebec is entitled to receive a combination of cash and tax abatement units equivalent to the transfer payments which would have been made had it opted to participate in the Canada Assistance Plan.

The amounts received by Quebec were:

The New Horizons Program was established in 1972 to encourage and enable retired Canadians to become more actively involved in the life of their community. This objective is accomplished by providing professional assistance and financial contributions to help groups of seniors to plan and develop projects in keeping with their interests and talents. These projects help participating seniors to remain socially active and provide them with an opportunity to become involved in community service projects which help many seniors to prolong an independent life-style.

APPENDIX 5

Summary of payments under the Family Allowances Act (National Health and Welfare)

Year ended March 31	Number of recipients (in thousands)	Number of children (in thousands)	Payments (in millions of dollars)
1988	3,666	6,597	2,564
1987	3,659	6,592	2,534
1986	3,645	6,585	2,501
1985	3,635	6,586	2,418
1984	3,638	6,622	2,326

Federal Family Allowances are paid in respect of dependent children under age 18. Although payment is normally made to the mother, it may be made to any person who has assumed responsibility for the maintenance of the child. Special Allowances are paid for children who are maintained by agencies or institutions. The legislation provides for annual escalation of the allowance in January of each year based on increases in the Consumer Price Index in excess of 3%. The federal monthly rate of family allowances per child was $31.93 in 1987 and $32.38 in 1988. Special allowances were $47.64 a month in 1987 and $48.31 in 1988.

A provincial government may request the federal government to vary the federal family allowances rate payable in that province on the basis of the age of the children or the number of children in the family, or both, provided that the smallest monthly payment in that province is at least 60% of the federal rate and the average monthly amount paid for all children in that province for a specific four year period is equal to the average monthly federal rate over the same period. The provinces of Alberta and Quebec have exercised this option.

In March 1988, there were 3,666,262 families and agencies receiving an average of $59.05 on behalf of 6,596,745 eligible children.

Child Tax Credit is an income-tested benefit designed to assist low and middle income families with children. The basic amount of 1987 Child Tax Credit was $489.00 per child. The total credit payable was reduced by 5% of net family income above $23,760. Payments applicable to taxation years 1985, 1986 and 1987 made from April 1, 1987 to March 31, 1988 amounted to $19,516,236, $1,052,753,957 and $565,537,991 respectively, a total of $1,637,808,184.

A full or partial basic Old Age Security pension is payable at age 65 or later to everyone who has met certain residence requirements.

A Guaranteed Income Supplement is an additional amount payable to pensioners who have little or no other income apart from the Old Age Security pension. Entitlement is normally based on income in the preceding calendar year, computed in accordance with the Income Tax Act. Where a married couple is concerned, each is considered to have one half of their combined income.

Spouse's Allowance is payable to the spouse of a pensioner if the spouse is age 60 to 64 and to widows and widowers aged 60 to 64. All recipients must meet certain residence requirements. Entitlement is based on income.

All benefits under the Old Age Security program are subject to change in January, April, July and October of each year based on increases in the Consumer Price Index.

The benefits in effect as at April 1, 1988 were as follows:

Monthly benefits	$
OAS (basic)	313.15
GIS (maximum)	
Single person or a married person whose spouse is not in receipt of OAS or SPA	372.16
Married couple, both pensioners—Each	242.39
Spouse's Allowance (maximum)	555.54
Widowed recipients	613.33

In March 1988, there were 2,835,107 old age security pensioners, of whom 1,356,672 or 48% were also receiving a supplement; the average supplement paid was $228.33. In addition, there were 140,159 spouses of pensioners in receipt of spouse's allowance. The average spouse's allowances benefit was $295.76.

Federal contributions in respect of post-secondary education are included under the established programs financing arrangements found in Part VI of the Federal-Provincial Fiscal Arrangements and Federal Post-Secondary Education and Health Contributions Act, 1977. Total entitlements for each province are based on a per capita amount prescribed in legislation. The amount is escalated annually in line with the growth of the gross national product and population. The tax contribution is the current value of a legislatively prescribed number of tax points (and the fiscal equalization associated with them). Cash payments are the difference between total entitlements and the tax contribution plus adjustments related to prior years payments. The equalization associated with the tax transfer is paid under the fiscal equalization program administered by the Department of Finance. The amount of these cash and tax transfers in 1987-88 is shown above.

(1) For unmatured debt, the amount of principal represents the closing balance as at March 31, 1988. For the specified purpose accounts and the other accounts, the amount of principal represents the net closing balance as at March 31, 1988.
(2) Amounts reported in this column represent interest (i.e. interest on unmatured debt (including Treasury bill and Canada bill discounts), on specified purpose accounts and on other accounts) unless otherwise indicated.
(3) Converted to $1 US = $1.2349 Canadian.
(4) These amounts include charges and receipts for swap agreements which correspond to these debt issues.
(5) Converted to 1 DM = $.7446 Canadian.
(6) Converted to 1 SF = $.9043 Canadian.
(7) Converted to 1 Y = $.009931 Canadian.
(8) Term to maturity is 20 years, or such lesser period as may from time to time be fixed by the Minister of Finance on recommendations of the Chief Actuary of the Department of Insurance, redeemable in whole or in part before maturity only at the option of the Minister of Finance.
(9) Interest on this balance is distributed to the Provinces of Ontario and Quebec on a basis of population.

Ex gratia payments

This statement provides, by ministry and program, details for all ex gratia payments of $100 or over. Payments of less than $100 are reported as one amount at the end of each program, together with the total number of such payments. For the purposes of this statement, an ex gratia payment is a payment for which no liability is recognized, whether or not any value or service has been received, and that is made as an act of benevolence in the public interest.

FEDERAL-PROVINCIAL SHARED-COST PROGRAMS

This statement presents, by province and territory, and for each federal-provincial shared-cost program, the current year and previous year expenditures and the expenditures from inception of the program. Programs are reported year after year until completion, and this even if there is no expenditure in a given year. An (f) adjacent to the total expenditures from inception indicates the programs completed in the current year. In this statement, amounts in roman type represent current year expenditures, amounts in **bold face** type represent previous year expenditures and amounts in *italic* type represent expenditures from inception.
